ACCTG 050 - Personal Financial Planning 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will learn in this introductory course how to create a personal financial plan designed to accomplish their financial and retirement goals. Foundations of the financial plan will be covered including asset allocation, portfolio theory, insurance needs, and investments to achieve short and long-term goals. Retirement and estate planning will also be discussed.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121404	101	Slec	W	06:00 PM—09:05 PM	01/29/24— 05/24/24	ZOOM	Heath, Stephen

This is a synchronous, online class with scheduled Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

ACCTG 062 - Cost Accounting 5.00 Units

Grading: L **|** ***Advisory Level — Read:*** *4* **|** ***Write:*** *4* **|** ***Math:*** *2*

Prerequisite: ACCTG 001B or ACCTG 021 with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students will study cost accounting principles, including essentials of job order, process cost, and standard cost accounting systems. They will focus on how cost accounting helps managers make better decisions for planning, controlling, and profitability analysis in a business environment as well as costing concepts for products, services, and customers.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121405	101	IH			01/29/24— 05/24/24	CANVAS	Torres, Daniel

ADS 072 - Codependency & Family Dynamics 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:***

Corequisite: ADS 070

Transfer Status: CSU | Degree Applicable: AA/AS

Students will examine codependency through attachment theory across the lifespan. Codependency behaviors will be explored as a response to disrupted attachment, which includes individual, sociocultural, psychological and physiological impact. The physical legacy of disrupted attachment is connected with the neurological and Central Nervous System changes resulting from the ACE (Adverse Childhood Experiences) study indicators, and the legacy of this impact across the lifespan. Course topics include attachment theory definitions and characteristics, Pia Mellody's Five Core Symptoms, genograms, dysfunctional and healthy family systems, codependency and parenting, social and cultural indicators, the psychical legacy of disrupted attachment which includes damage to the immune system, approaches to recovery, and tools of recovery. Students will be required to attend self-help groups in the community.

ADS 090 - Peer Advocacy and Wellness 2.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:*** *0*

Transfer Status: None | Degree Applicable: AS

This course is designed to train peer mentors. Students will master the federally-funded training called Whole Health Action Management (WHAM) developed by the SAMHSA-HRSA Center for Integrated Health Solutions operated by the National Council for Behavioral Health. According to the Substance Abuse and Mental Health Services Administration, a peer provider is a person who uses his or her "lived experience" of recovery from mental illness and/or addiction, plus skills learned in formal training, to deliver services in recovery and behavioral health settings to promote mind-body recovery, self-advocacy, and resiliency. Students will enroll in one unit of ADS-138 with this course to meet CCAPP Peer Recovery Specialist requirements.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120888	101	Lec	T	06:15 PM—08:05 PM	01/29/24— 05/24/24	OFC	Iacocca, Demetria

This section is reserved for students in the Reentry program.

ADS 098 - ADS Directed Study 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:*** *0*

Recommended: Students will have completed ADS 170-176 or equivalent.

Transfer Status: CSU | Degree Applicable: AA/AS

Individual or small groups of students, with previous coursework in the discipline, who would benefit from Independent Study under the direction of faculty members in specific or related disciplines may develop individualized learning contracts designed to enhance their individual instructional programs. The students and the faculty member will develop appropriate learning outcomes and activities. The number of units to be earned will be determined by the faculty and Division Dean. Instructions and the Learning Contract forms are available in the Division office. Repeatable to a maximum of 9 units across all disciplines.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121834	101				01/29/24— 05/24/24	CANVAS	Cook, Mary

This section is for students completing both ADS 177A and ADS 177B coursework.

ADS 138 - Work Experience 2.00 Units

Grading: O **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Corequisite: Be employed or a volunteer at an approved work-site for the minimum number of hours per unit as stipulated for paid and unpaid status.

Transfer Status: CSU | Degree Applicable: AA/AS

Occupational Work Experience is designed for students who work or volunteer in a field related to their vocational major. Students are required to provide evidence that they are enrolled in a vocational program (e.g., educational plan or coursework in a vocational subject area). The Alternate Plan is designed to allow students attend school one semester and work the next. A maximum of 8 units of Occupational Work Experience credit may be earned during any one semester, to a maximum of 16 units total. Students may only take one (if any) class in addition to work experience while they are enrolled in WE 138. Enrolled in an accredited secondary program. Internship/job placement is not guaranteed.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121516	101	WE			01/29/24— 05/24/24	OFC	Casper, Pauline

This is a synchronous class with some meetings in person on campus at the times listed and some online Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

AIRC 138 - Work Experience 8.00V Units

Grading: O **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Corequisite: Be employed or a volunteer at an approved work-site for the minimum number of hours per unit as stipulated for paid and unpaid status.

Transfer Status: CSU | Degree Applicable: AA/AS

Work Experience is designed for students who work or volunteer in a field related to their career major. Students are required to provide evidence that they are enrolled in a career program (e.g., education plan or coursework in a career/technical subject area). Students can earn one unit of credit for each 60 hours of unpaid volunteer time or 75 hours of paid work during the semester. Students can repeat Career/Technical Work Experience, combined with General Work Experience, or alone, up to a maximum of 16 units. Internship/job placement is not guaranteed.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121415	101	WE			01/29/24— 05/24/24	OFC	Cronan, Jonathan

AIRC 142 - Air Conditioning Control Sys 4.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Prerequisite: AIRC 131 and AIRC 132 both with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students will study theory, application, and operation of Heating, Ventilating, and Air Conditioning (HVAC) control systems including electric, pneumatic, solid state, and digital control systems. Students will also study Energy Management Systems (EMS) and building applications, green technology, including fire/smoke, lighting, and heating and ventilation controls.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121417	101	Slec	T	05:00 PM—06:50 PM	01/29/24— 05/24/24	ZOOM	Mabie, Christopher
	101	Lec	TH	05:00 PM—06:50 PM	01/29/24— 05/24/24	209	Mabie, Christopher

This is a synchronous class with some meetings in person on campus at the times listed and some online Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

AIRC 145 - Sheet Metal 2.00 Units

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Transfer Status: CSU | Degree Applicable: AA/AS

Students will learn the concepts of design, construction, and installation of sheet metal for the air conditioning industry. Students will learn the fundamentals of sheet metal working processes, such as layout, cutting, forming, and fabrication, and

will apply these fundamentals to hands-on lab projects.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

ART 090 - Art Appreciation 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will develop an appreciation of the visual arts, aesthetics, and creative process. They are introduced to the analysis of art in terms of form, function, process, content, and themes. Students receive a broad overview of the visual arts, its elements and principles, media, techniques, and terminology. Students will also examine the role of art criticism and aesthetics in a historical and cultural context. Field trips may be required.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120735	101	IO			01/29/24— 05/24/24	CANVAS	Arnold, Kathryn

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Padlet, Google Drive SmartHistory, and Flipanim. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

120736	102	IH			01/29/24— 05/24/24	CANVAS	O'Leary, Kelley
	102	Lec	W	06:15 PM—07:30 PM	01/29/24— 05/24/24	A112	O'Leary, Kelley

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

ART 091 - Art History-Prehistoric-Gothic 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study Western art history from the Prehistoric through the Gothic periods. Course content emphasizes painting, sculpture, and architecture from the most important centers of culture, and how art reflects historical, social, political, and religious attitudes of the time. Comparative analysis of styles with critical evaluation of aesthetics. A field trip may be required.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

ART 092 - Surv Art Hist-Renscn to Pres 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study Western and Non-Western art history from the Renaissance through the present. Course content emphasizes painting, sculpture, and some architecture from the most important centers of culture, and how art reflects historical occurrences, social, political, and religious attitudes of the time. Comparative analysis of styles and artists with critical evaluation of aesthetics will be included. Topics include Early to High Renaissance, Mannerism, Baroque, Rococo, Romanticism, Impressionism, Post-Impressionism, Fauvism, Cubism, Abstract Expressionism, and Post Modernism. A field trip may be required.

ASTRO 010 - Introduction to Astronomy 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study astronomical processes related to the structure and origin of the solar system, the Milky Way, the lives of stars, galaxies, and the search for extraterrestrial life. The relationship of these processes to each other and to overarching astronomy concepts, such as the evolution of our universe and the laws of physics will be examined. Major focuses include communicating scientific concepts, the impact these processes have on civilization and recent research. The scientific method is illustrated as it relates to analyzing astronomy problems. Fieldtrips may be required.

ASTRO 010L - Intro Lab General Astronomy 1.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: ASTRO 010 with C or better

Corequisite: Or concurrent enrollment in ASTRO 010

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will make observations with portable telescopes on campus and use computer simulations to help visualize astronomical events. Students will make use of models to reproduce the apparent motion of planets and stars in the sky. They will investigate the properties of light and how our view of astronomical phenomena is affected by those properties. They will also explore astronomy in the news including current NASA missions and the search for signs of life's footprints outside of Earth. Fieldtrip(s) may be required.

BIOL 004A - General Principles & Cell Biol 5.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: CHEM 001A or CHEM 001AH with a C or better

Recommended: Recently completed biology course with high B or better in high school or college (i.e. Biol 20, Biol 21).

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will explore the scientific method, biochemistry, cell structure and function, bioenergetics, cell reproduction, Mendelian inheritance, molecular genetics, biotechnology, evolution of the genome, and some biochemical laboratory techniques for proteins and DNA. Biology 004A is a lecture lab course and the first of a two-term sequence for students interested a career in the sciences, teaching, medicine, or biochemistry. Field trips may be required.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120285	101	Lec	TTH	10:45 AM—12:05 PM	01/29/24— 05/24/24	S123	Hurst, Karen
	101	Lab	TTH	12:15 PM—03:20 PM	01/29/24— 05/24/24	S130	Hurst, Karen

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. It is strongly encouraged to complete the entire sequence of BIOL 004A and BIOL 004B at San Jose City College. Transfer institutions, including San Jose State University, may not accept these courses if the sequence is completed at two different colleges (including Evergreen Valley College). Please see your counselor for more information.

BIOL 004B - Biodiversity & Organismal Bio 5.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:***

Prerequisite: BIOL 004A with C or better or equivalent

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Biology 004B is the second course in a two-term sequence for students preparing for careers in the sciences, including the health sciences, biochemistry, research, and teaching. Students will study the basic biology and diversity of unicellular and multicellular organisms by emphasizing evolutionary theory, Earth history, phylogeny, form and function/adaptation, physiology, and ecology of life on Earth. Field studies may be required.

BIOL 021 - General Biology 4.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study the general principles and basic concepts of biology. The course includes the characterization of and classification of living systems, the cell, metabolism, development, genetics, evolution, ecology, dissection, and human health and reproduction. This is an introductory course for non-science majors. This course is not designed for biology or related pre-professional majors, except as a prerequisite for other biology courses.

BIOL 071 - Human Anatomy 5.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: BIOL 004A or BIOL 020 or BIOL 021 or an AP Biology Exam Score of 3 or higher.

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study the structure of the human body: identifying its parts and systems, understanding interrelationships between the parts and systems, and making clinical applications. Laboratory activity includes the study of models, dissection of a human cadaver and other selected mammalian organs, and use of the microscope. This course is primarily intended for pre-professional majors such as Nursing, Allied Health, Kinesiology, Occupational Therapy, Physical Therapy, Respiratory Therapy, Chiropractic, and other health-related majors.

BIOL 072 - Human Physiology 5.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: BIOL 071 and CHEM 001A or CHEM 001AH or CHEM 015 or CHEM 015H or CHEM 030A or CHEM 032A; all with C or better. Intermediate Algebra or appropriate placement beyond Intermediate Algebra.

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will explore the different body systems (e.g. nervous, endocrine, muscular, urinary, respiratory, cardiovascular, reproductive) along with cellular physiology and metabolism. Students will learn to apply physiology in the context of disease, including learning to answer questions like: If you pull someone's heart out of their chest, why does the heart keep beating? Why is 0.9% NaCl often the IV of choice in hospitals? Why is it dangerous to drink too much water too fast? Why do you feel dizzy when you stand up? This course is designed for college degrees in nursing, physical and occupational therapy, and certain science and preprofessional majors.

	101	Lec	M	06:00 PM—09:05 PM	01/29/24— 03/22/24	T419	Kas-Osoka, Joshua

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

BUS 135 - Human Relations/Leadership 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Transfer Status: CSU | Degree Applicable: AA/AS

Students will study basic concepts of individual, group, and organizational human behavior in relationship to interpersonal skills affecting productivity, performance, and human relations in the workplace. Students will focus on the interpersonal, informal, and formal communication processes, development of leadership, employer-employee and cross cultural relationships.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121856	102	IH			02/22/24— 05/24/24	CANVAS	Lee, Christine
	102	Slec	TH	06:00 PM—09:05 PM	02/22/24— 05/24/24	ZOOM	Lee, Christine

This is a hybrid class with scheduled online Zoom meetings at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

CA 040D - Microsoft Word Level 1 1.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Recommended: Basic touch keyboarding of 25 net words per minute. It is highly recommended that you take CA 100D or its equivalent before taking this class.

Transfer Status: None | Degree Applicable: AS

Students will learn the basics of Microsoft Word including: creating documents; using tables and templates to create resumes and cover letters; creating research papers, newsletters, and merged mailing labels. In addition, students will learn how to use styles, create multilevel lists and charts, and table features. It is highly recommended that you take CA 100D or its equivalent before taking this class. This is a self-paced course.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121049	101	IO			01/29/24— 05/24/24	CANVAS	Layman, Norma

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CA 050D - Microsoft Excel Level 1 1.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Recommended: Basic touch keyboarding of 25 net words per minute. It is highly recommended that you take CA 100D or its equivalent before taking this class.

Transfer Status: None | Degree Applicable: AS

Students will learn the basic features of Excel to create charts, work with built in mathematical functions, create tables, and manage large worksheets. Students will apply themes and conditional formatting to modify the style of the worksheet as well as save files under different formats. Students will create excel databases as well as sort and filter data. It is highly recommended that you take CA 100D or its equivalent before taking this class. This is a self-paced course.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121050	101	IO			01/29/24— 05/24/24	CANVAS	Renner, Adrienne

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CA 090 - Microsoft Project 2.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Recommended: Basic touch keyboarding skill of 25 net words a minute

Transfer Status: None | Degree Applicable: AS

Students will learn about Microsoft Project as a critical tool for project management planning, tracking, decision-support, and project office support. The course content is process-centric, not feature-focused. This enables students to quickly and effectively apply the tool to their specific projects. This course presents practical concepts and techniques for using a commonly available, but often-misused, management tool. No software programming experience is required.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

CHEM 001A - General Chemistry 5.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: CHEM 015 and MATH 013, both with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

This course is the first semester of the one year college level general chemistry sequence. Students will study basic chemical principles: classification of matter, atomic structure and periodicity, chemical nomenclature, types of reactions, stoichiometry, thermochemistry, chemical bonds, physical states of matter and solution chemistry. This course is required for students majoring in physical and biological sciences and pre-professional majors, such as pre-medicine and dentistry.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120325	101	Lec	TTH	09:00 AM—10:20 AM	01/29/24— 05/24/24	S209	Wilcox, Allan
	101	Lab	TTH	10:30 AM—01:35 PM	01/29/24— 05/24/24	S209	Wilcox, Allan

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This course requires purchase of McGraw-Hill ALEKS.

120326	102	IH			01/29/24— 05/24/24	CANVAS	Lazik, Iyun
	102	Lab	MW	12:15 PM—03:20 PM	01/29/24— 05/24/24	S209	Esfandiari, Melody

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course requires purchase of ALEKS.

120328	103	Lec	TTH	06:00 PM—07:20 PM	01/29/24— 05/24/24	S209	Stepp, Stephanie

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

CHEM 001B - General Chemistry 5.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: CHEM 001A with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study topics including organic chemistry, thermodynamics, chemical kinetics, chemical equilibrium, electrochemistry, coordination compounds, and nuclear chemistry. The laboratory emphasizes qualitative and quantitative analysis of inorganic compounds and introduces electronic instrumentation. This course is a continuation of CHEM 001A, the second semester of a one year college level general chemistry sequence.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120329	101	Lec	MW	09:00 AM—10:20 AM	01/29/24— 05/24/24	S123	Cantin, Lucas
	101	Lab	MW	10:30 AM—01:35 PM	01/29/24— 05/24/24	S212	Cantin, Lucas

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. Course requires purchase of Aktiv Learning. This is a LTC (low textbook cost) section. If there is a required textbook, you will be able to access it online or purchase a hard copy for $40 or less.

CHEM 010 - Everyday Chemistry 4.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: MATH 111 with a P

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study how chemistry impacts their everyday life. This course includes topics that address socio-cultural aspects of chemistry such as consumer products, energy applications, food production and nutrition. Students will also examine the design, use, and life cycle of synthetic materials and their environmental impact. This course is geared for non-science majors or for students without previous background in science.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120331	101	IO			01/29/24— 05/24/24	CANVAS	Lazik, Iyun

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CHEM 012A - Organic Chemistry 5.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: CHEM 001B with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

This is the first semester of a year-long comprehensive organic chemistry course with emphasis on structure, reaction mechanisms, and kinetics. Students will study topics that include nomenclature, stereochemistry, mechanisms, reactions, and spectroscopic studies of organic compounds. They will use problem-solving techniques in order to elucidate mechanistic, structural, and stereochemical features of reactions and molecules, respectively. In lectures and laboratory students will implement methods that focus on synthesis, isolation, purification, elucidation, and identification of organic structures, instrumental methods, and data interpretation.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

	101	Lab	MW	09:00 AM—12:05 PM	01/29/24— 05/24/24	S208	Lazik, Iyun

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. It is strongly encouraged to complete the entire sequence of CHEM 012A and CHEM 012B at San Jose City College. Transfer institutions, including San Jose State University, may not accept these courses if the sequence is completed at two different colleges (including Evergreen Valley College). Please see your counselor for more information.

CHEM 012B - Organic Chemistry 5.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: CHEM 012A with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

The second semester of a year-long organic chemistry course designed to follow Chemistry 12A. Students will study topics including nomenclature, stereochemistry, mechanisms, reactions, and spectroscopic studies of aliphatic and aromatic alcohols, aldehydes, ketones, acids, and other classes of organic and biological compounds. Students will use problem-solving techniques in order to elucidate mechanistic and structural and stereochemical features of reactions and molecules, respectively. In lectures and laboratory students will implement methods that focus on synthesis, isolation, purification, elucidation and identification of organic structures, instrumental methods and data interpretation.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

CHEM 015 - Fundamentals of Chemistry 4.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: Intermediate Algebra or appropriate placement beyond Intermediate Algebra

Recommended: MATH 013 may be taken prior to or concurrent with CHEM 015.

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to the fundamentals of modern inorganic chemistry with emphasis on atomic structure, chemical bonding, chemical formulas, nomenclature, equations, stoichiometry, gas laws, solutions, and related topics. The central nature of chemistry among other branches of science is stressed, and examples of the important role that chemistry plays in our lives are presented. CHEM 015 is intended primarily as preparation for the CHEM 001A and 001B sequence. The course also meets the general education requirements for a laboratory science.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

CIS 018A - CCNAv7: Intro to Networks 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Recommended: CIS 041 or equivalent strongly recommended

Transfer Status: CSU | Degree Applicable: AA/AS

This is the first of three courses for the Cisco Certified Network Associate (CCNAv7) Program. Students are introduced to the fundamentals of networking concepts and technologies. Students acquire the skills necessary to plan and implement small networks across a range of applications. Topics include the OSI model and industry standards, network topologies, IP addressing, IPv4, IPv6, subnet masks, networking components, and basic network design. Students will learn the architecture, structure, functions, and components of the Internet and other computer networks. Students achieve a basic understanding of how networks operate and how to build simple local area networks (LAN), perform basic configurations for routers and switches, and implement Internet Protocol (IP).

121070	101	IO			01/29/24— 03/22/24	CANVAS	Sengal, Kidane

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Cisco Netacad. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 018B - CCNAv7: Routing and Switching 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: CIS 018A with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students acquire knowledge of how a router "learns" about remote networks and determines the best path to those networks. Students study topics including both static routing and dynamic routing protocols. Students acquire the skills necessary to plan and implement small networks using Cisco IP routers and basic switches.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121071	101	IO			04/01/24— 05/24/24	CANVAS	Grotegut, Richard
		101	IO			04/01/24— 05/24/24	CANVAS	Grotegut, Richard

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Netacad. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 020 - XML Fundamentals 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Transfer Status: CSU | Degree Applicable: AA/AS

Students will learn the essential concepts of XML technologies by creating XML documents, using Document Type Definitions (DTDs) and Schemas to validate XML documents, and creating their own DTDs and Schemas thereby defining the rulebook for the structure and content of XML documents. Students will also learn the basics of XPath to locate and extract content from an XML data file, use XLink and XPointer to link content, use SVG to create graphics and icons using XML, and the basics of XSL to transform an XML document into other types of objects, such as web pages, computer scripts, emails, and books. Students will also learn how to use Cascading Style Sheets (CSS) to render XML documents using nothing but a text editor and a web browser.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121072	101	IO			01/29/24— 03/22/24	CANVAS	Dharmale, Pragati

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This course uses Microsoft Suite. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 020A - Advanced XML 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Recommended: Completion of CIS 020, or equivalent, is strongly recommended

Transfer Status: CSU | Degree Applicable: AA/AS

Students will increase their knowledge and expertise in the essential concepts of XML technologies. Students will experience an in-depth deep dive into DTDs and Schemas to validate and analyze programmatically the structure of XML data. Students will learn the basics of computer programming, and build XML parsers to process and analyze XML files. Using XSLT, students will convert XML files into other files, such as computer scripts, and will build RESTful web applications using XML, PHP, and APIs.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121073	101	IO			04/01/24— 05/24/24	CANVAS	Dharmale, Pragati

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This course uses Microsoft Suite. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 023 - Javascript Programming 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Recommended: CIS 041

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study how to use JavaScript to create dynamic web pages, and how to add animation and interactivity to make Web pages come alive. Students will learn how to use Document Object Model (DOM), Browser Object Model (BOM), and Dynamic HTML (DHTML) to be able to develop well-formed web pages.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121074	101	IO			01/29/24— 05/24/24	CANVAS	Dorairaj, Sanjay

		102	Slec	T	06:00 PM—07:50 PM	01/29/24— 05/24/24	ZOOM	Solomon, Gabriel

This is a hybrid class with scheduled online Zoom meetings at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you. This course usees VS Code, Github, and Python.

CIS 041 - Intro to Computer Info Sys 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will learn basic computer concepts with an emphasis on both the personal computer and enterprise computing. Students cover topics including hardware, application and system software, the internet and World Wide Web, communications, e-commerce, societal issues, database management, systems analysis and design, programming, information systems, career opportunities, certifications in the computer field, and computer trends. Student get hands-on practice of introductory level skills in word processing, spreadsheets, database, presentation graphics, and use of the internet. Students will be exposed to a programming language.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121077	103	IO			01/29/24— 05/24/24	CANVAS	Solomon, Gabriel

		108	Lec	M	03:50 PM—05:40 PM	01/29/24— 05/24/24	MIL-TECH	Farhoodfar, Avid

This section is held at the SJCC Milpitas Extension: 1450 Escuela Parkway, Milpitas, CA 95035. This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 047 - Intro to Web Development 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Transfer Status: CSU | Degree Applicable: AA/AS

Students will study how to manage and maintain industry-class websites. Students will study the basics of open-source web-server (Apache). Students will gain knowledge to use and implement the most widely used open-source server-side scripting language (PHP) along with the most popular open-source relational database (MySQL).

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121082	101	IH			01/29/24— 05/24/24	CANVAS	Branom, Mark

101	Slec	TH	05:00 PM—05:50 PM	01/29/24— 05/24/24	ZOOM	Branom, Mark

This is a hybrid class with scheduled online Zoom meetings at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 054 - C/C++ Programming 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *4*

Recommended: CIS 041 and CIS 106

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study C, a general-purpose programming language, which features brevity of expression, modern control flow and data structures, and a rich set of operators. Students will also study C++, an object oriented programming language that is built using the C language as a base. Students will learn the importance of portability and efficiency through a variety of programming assignments. This course includes application programs and/or systems software.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121083	101	IO			02/26/24— 05/24/24	CANVAS	Dharmale, Pragati

		102	IO			04/01/24— 05/24/24	CANVAS	McElroy, Daniel

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses https://onlineGDB.com or a software development system selected by the student such as Microsoft Visual Studio, Apple Xcode, Eclipse, NetBeans, Code::Blocks, DevCpp, etc. Course uses a word processor such as Microsoft Word, Apple Pages, or Libre Office Write, and also a spreadsheet application such as Microsoft Excel, Apple Numbers or Libre Office Calc. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 055 - Data Structures: Programming 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *4*

Prerequisite: CIS 024B or CIS 024C or CIS 054 or CIS 084, with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will learn a language-independent treatment of topics including computer organization, data formats, recursion, and abstract data types. Data structures covered include abstract data types, arrays, pointers, link lists, stacks, queues, trees, heaps, hash tables, and graphs. Applications of recursion algorithms are discussed in detail. Techniques for sorting algorithms and searching algorithms, as well as measuring algorithm performance and data structure efficiency using Big-O notation, are presented.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

CIS 107 - Technest 2: Data Science 3.00 Units

Grading: O **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: Successful completion of the assessment exercises must be done before student can enroll.

Transfer Status: CSU/UC | Degree Applicable: AA/AS

As the second course in the Technest Coding Academy, students learn the three main factors of data science: inferential thinking, computational thinking, and real-world relevance. Topics include critical concepts and skills in computer programming and statistical inference, and the analysis of real-world datasets, as well as social issues surrounding data analysis such as privacy and design. This course is based on UC Berkeley's Data 8 course curriculum. Enrollment in this class is contingent upon acceptance into the Technest Coding Academy. Interested students will need to contact course instructor listed in the schedule of classes.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

CIS 120 - Business & Data Analytics 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Recommended: CIS 041

Transfer Status: CSU | Degree Applicable: AA/AS

This course is the first in a four-part series and is designed to introduce students to the fundamentals of Business and Data Analytics. It aims to develop students' understanding of analytics in the context of a business and to provide a framework for students to apply topics such as: framing a business problem, stakeholder analysis, data wrangling using Google Sheets, data visualizations, descriptive statistics, exploratory data analysis, and data storytelling in business. In this course students will learn how to clean, visualize, analyze, and communicate data insights to stakeholders. This course culminates in a hands-on final project in which students will perform an end-to-end exploratory data analysis (EDA) using real industry data. This course has been developed by Pathstream and is part of the Business & Data Analytics Certificate in collaboration with Tableau & Silicon Valley Bank.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121717	101	IH			01/29/24— 03/22/24	CANVAS	Dorairaj, Sanjay
		101	Slec	W	05:00 PM—06:50 PM	01/29/24— 03/22/24	ZOOM	Dorairaj, Sanjay

This is a hybrid class with scheduled online Zoom meetings at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Coursera/Pathstream/Google's Qwiklabs. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 122 - SQL for Data Analytics 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: CIS 120 with C or better

Recommended: CIS 120

Transfer Status: CSU | Degree Applicable: AA/AS

This course is the second in a four-part series and is designed to introduce students to the fundamentals of Business and Data Analytics. Students will be introduced to Structured Query Language (SQL) and will learn to identify the role and structure of relational databases as they apply to data analytics, apply the Structured Query Language (SQL) in MySQL for data manipulation language (DML), apply the Structured Query Language (SQL) in MySQL for data definition language (DDL), and apply normal forms (1NF, 2NF, & 3NF) for database normalization. This course has been developed by Pathstream and is part of the Business & Data Analytics Certificate in collaboration with Tableau & Silicon Valley Bank.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

		102	Lec	W	08:30 AM—10:00 AM	01/17/24— 05/24/24	EVHS	Li, Alice

This is a dual-enrollment section offered at Evergreen Valley High School. It is reserved for students of this high school only. Course uses Coursera/Pathstream/Google's Qwiklabs. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 123 - Data Visualization w/Tableau 3.00 Units

Grading: L | ***Advisory Level*** — ***Read:*** *3* | ***Write:*** *3* | ***Math:***

Prerequisite: CIS 120 and CIS 122 with C or better

Recommended: CIS 120 and CIS 122

Transfer Status: CSU | Degree Applicable: AA/AS

This course is the third in a four-part series focused on Business / Data Analytics and is designed for community college students. In this course, students will explore the role and application of data visualization in the data analysis process using Tableau. They will create and design both static and dynamic tables, data visualizations, dashboards, and stories while incorporating visual design best practices to better communicate insights to intended audience, such as business stakeholders. Students will also connect multiple external data sources (e.g., Text Files, Excel, SQL databases) to Tableau and optimize large data to efficiently wrangle and analyze real-industry data. The course is focused on project-based learning and prepares students for the skills identified in the Tableau Desktop Specialist certification. Pathstream has built this course in partnership with Silicon Valley Bank and Tableau.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121719	102	IH			04/01/24— 05/24/24	CANVAS	Dorairaj, Sanjay

This is a hybrid class with scheduled online Zoom meetings at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Coursera/Pathstream/Google's Qwiklabs. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 124 - Utilizing Statistics for Data 3.00 Units

Grading: L | ***Advisory Level*** — ***Read:*** *3* | ***Write:*** *3* | ***Math:*** *3*

Recommended Preparation: Previous completion of CIS 120, CIS 122, and CIS 123 or equivalent experience

Transfer Status: CSU | Degree Applicable: AA/AS

This course is the fourth in a four-part series focused on business / data analytics, and aimed at community college students who have little or no background in business or analytics. The first three courses in the series are not necessarily prerequisites for this course, but a basic familiarity with data and spreadsheets is assumed. The course is focused on project-based learning using Google Sheets and Python to apply basic statistical techniques to data.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

This is a hybrid class with scheduled online Zoom meetings at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Coursera/Pathstream/Google's Qwiklabs. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 140 - Technical Support Fundamentals 2.00 Units

Grading: L | ***Advisory Level*** — ***Read:*** *2* | ***Write:*** *2* | ***Math:*** *2*

Transfer Status: None | Degree Applicable: AS

This course is the first of a series that aims to prepare students for a role as an entry-level IT Support Specialist. In this course, students will be introduced to the world of Information Technology, or IT. Students will learn about the different facets of Information Technology. Topics will include: an introduction to computer hardware, the Internet and security, managing computer software, networking and security, understanding operating systems and how to install them, troubleshooting, and customer service.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121107	101	IO			01/29/24— 05/24/24	CANVAS	Jones, Sandra
		101	IO			01/29/24— 05/24/24	CANVAS	Jones, Sandra

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Coursera/Pathstream/Google's Qwiklabs. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 141 - IT Computer Networking 2.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Transfer Status: None | Degree Applicable: AS

This course is part of a series that aims to prepare students for a role as an entry-level IT Support Specialist. In this course, students will learn a full overview of Computer Networking. Topics will include: the fundamentals of modern networking technologies and protocols to an overview of the cloud to practical applications and network troubleshooting.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121108	101	IO			02/20/24— 05/24/24	CANVAS	Jones, Sandra
		101	IO			02/20/24— 05/24/24	CANVAS	Jones, Sandra

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Coursera/Pathstream/Google's Qwiklabs. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

121842	102	Lec	MW	01:00 PM—02:25 PM	01/29/24— 03/20/24	OFC	Mandyam, Srinivasan
	102	Lab	MW	02:35 PM—04:00 PM	01/29/24— 03/20/24	OFC	Mandyam, Srinivasan

This course is reserved for students in the CA Apprenticeshipe Elmwood Google IT Program. Additional class times may be required as needed.

123136	103	Lab	F	01:00 PM—03:50 PM	03/06/24— 05/03/24	OFC	Farhoodfar, Avid
	103	Lec	W	01:00 PM—03:50 PM	03/06/24— 05/03/24	OFC	Farhoodfar, Avid

This section is reserved for students at the Elmwood

CIS 142 - Operating Systems 2.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: CIS 140 with C or better

Transfer Status: None | Degree Applicable: AS

This course is part of a series that aims to prepare students for a role as an entry-level IT Support Specialist. In this course, students will learn about the main components of an operating system (Windows, Linux OS, etc.) and how to perform critical tasks like managing software and users and configuring hardware.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121110	101	IO			03/04/24— 05/24/24	CANVAS	Sengal, Kidane

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This course uses Qwiklabs. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 143 - IT Infrasctucture Services 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Transfer Status: None | Degree Applicable: AS

This course is part of a series that aims to prepare students for a role as an entry-level IT Support Specialist. In this course, students will learn infrastructure services that keep all organizations, big and small, up and running, typical cloud infrastructure setups and how to manage cloud resources, how to manage and configure servers and how to use industry tools to manage computers, user information, and user productivity, and how to recover your organization’s IT infrastructure in the event of a disaster.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121111	101	IO			03/04/24— 05/24/24	CANVAS	Sengal, Kidane

		101	IO			03/04/24— 05/24/24	CANVAS	Sengal, Kidane

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This course uses Qwiklabs. This

is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 144 - IT Security 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Transfer Status: None | Degree Applicable: AS

This course is part of a series that aims to prepare students for a role as an entry-level IT Support Specialist. In this course, students will learn about IT security concepts, tools, and best practices. Topics will include: the manner in which threats and attacks manifest, an overview of encryption algorithms and how they're used to safeguard data, the three As of information security (authentication, authorization, and accounting), network security solutions ranging from firewalls to Wifi encryption options, and a multi-layered, in-depth understanding of security architecture followed by recommendations on how to integrate a culture of security into your organization or team.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121112	101	IO			03/04/24— 05/24/24	CANVAS	Jones, Sandra
		101	IO			03/04/24— 05/24/24	CANVAS	Jones, Sandra

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Coursera/Pathstream/Google's Qwiklabs. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 157 - Introduction to Unix/Linux 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to the Unix/Linux operating systems. Topics covered include a basic editor, shells, directory and file structure, file permissions, passwords, security, redirection, pipes, filters, regular expressions and shell programming. Additional topics include the use of I/O devices, Internet access, and an introduction to system administration.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121113	101	IH			01/29/24— 03/22/24	CANVAS	Workeneh, Yeheyis
		101	Slec	W	06:00 PM—08:25 PM	01/29/24— 03/22/24	ZOOM	Workeneh, Yeheyis

This is a hybrid class with scheduled online Zoom meetings at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Netlab. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CIS 158 - Linux System Administration 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: CIS 157 with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students study the concepts of Linux system administration. Topics include Linux installation, Unix/Linux file systems, managing user accounts, user shells, security, system resources, system and file backup and restore, printers and print spooling systems, TCP/IP network configuration and/or management, network access using telnet and ftp, ssh (secure shell), interface to networks using NFS 3 and SAMBA, electronic mail systems, system kernel builds, and system tuning. Students use shell scripts to demonstrate system administration.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121114	101	IH			04/01/24— 05/24/24	CANVAS	Workeneh, Yeheyis

This is a hybrid class with scheduled online Zoom meetings at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Netlab. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to yo

CIS 160 - Intro to Info Systems Security 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Prerequisite: CIS 014A

Transfer Status: CSU | Degree Applicable: AA/AS

Students are introduced to the fundamental principles and topics of Information Technology Security and Risk Management at the organizational level. They will gain knowledge in hardware, software, processes, communications, applications, and policies and procedures with respect to organizational Cybersecurity and Risk Management. This course prepares students for the CompTIA Security certification exams.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121115	101	IO			01/29/24— 05/24/24	CANVAS	Solomon, Gabriel

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

CNSTR 101A - Tools, Materials, and Safety 2.00 Units

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Recommended: Ability to accurately measure and do calculations using feet, inches, and fractions.

Transfer Status: CSU | Degree Applicable: AA/AS

Students will learn to properly use a variety of hand and power tools that are commonly utilized in constructing and repairing houses. Students will also learn about materials used in the construction industry including dimensional and engineered lumber, manufactured and energy efficient building materials, and fasteners and adhesives. These tools and materials will be incorporate Building Information Modeling (BIM) and be used to build projects in the shop. Students also learn how to choose the best tool for the job at hand and to use that tool efficiently and safely. This entry-level course to the construction industry is a prerequisite for several of the other Construction Technology courses. Students will utilize Building Information Modeling (BIM) as part of this course.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121444	101	Lec	M	09:00 AM—10:05 AM	02/12/24— 05/20/24	CT113	Perez, Antonio
	101	Lab	M	10:15 AM—02:05 PM	02/12/24— 05/20/24	CT113	Perez, Antonio

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

121445	102	Lec	M	05:00 PM—06:05 PM	02/12/24— 05/20/24	CT113	Perez, Antonio

CNSTR 101B - Residential Constr Framing 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Corequisite: CNSTR 101A with C or better, or equivalent experience

Recommended: Ability to accurately measure and do calculations using feet, inches, and fractions

Transfer Status: CSU | Degree Applicable: AA/AS

Students are introduced to the requirements and techniques of properly framing residential structures per the Residential Code and interact and construct a design from students taking Building Information Modeling (BIM) course. Students will layout, frame floors and ceilings, and plumb and line walls. Students will also acquire skills in laying subfloor, hanging shear wall and installing metal fasteners. Students will learn to read simple floor plans and identify foundation types and parts. Students will utilize Building Information Modeling (BIM) as part of this course.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121446	101	Lec	T	11:00 AM—12:50 PM	01/29/24— 05/24/24	CT111	Lomax, David

	101	Lab	T	01:00 PM—04:05 PM	01/29/24— 05/24/24	CT111	Lomax, David

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. Course requires purchase of Cengage subscription and access to a laptop and/or smartphone.

CNSTR 102A - Residential Plumb Systems 3.00 Units

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Corequisite: CNSTR 101A

Transfer Status: CSU | Degree Applicable: AA/AS

Students will be introduced to the concepts of residential plumbing systems and energy efficient technology. The course covers the theory and practice of plumbing for residential dwellings. Students will study topics including, but not limited to, drain, waste and vent design and installation, domestic water piping systems design and installation, and plumbing fixture installation and repair.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121448	101	Lec	W	05:00 PM—06:50 PM	01/29/24— 05/24/24	CT117	Krause, Warren
	101	Lab	W	07:00 PM—10:05 PM	01/29/24— 05/24/24	CT117	Krause, Warren

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

CNSTR 102B - Residential/Commercial Wiring 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Recommended: General math skills are needed for calculations.

Transfer Status: CSU | Degree Applicable: AA/AS

Students will study the fundamentals of residential and commercial electrical wiring including electrical theory, installation of receptacles, switches, GFCIs (Ground Fault Circuit Interrupters), AFCIs (Arc Fault Circuit Interrupters), lighting devices and service panels. Students will develop a working knowledge of circuits, sizing conductors, box fill, load calculations, wiring diagrams, grounding requirements, circuit breakers and pipe bending. Electrical codes, symbols, energy saving technology, tools of the trade and safety will also be covered. This course meets the state requirement for entry level electricians to get their trainee card. Students will utilize Building Information Modeling (BIM) as part of this course.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121449	101	Lec	TH	05:00 PM—06:50 PM	01/29/24— 05/24/24	CT117	Gorginian, Edward
	101	Lab	TH	07:00 PM—10:05 PM	01/29/24— 05/24/24	CT117	Gorginian, Edward

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

121450	102	Lec	F	05:00 PM—06:50 PM	01/29/24— 05/24/24	CT117	Gorginian, Edward
	102	Lec	F	05:00 PM—06:50 PM	01/29/24— 05/24/24	CT117	Gorginian, Edward

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

CNSTR 104 - Cnstr Interior/Exterior Finish 3.00 Units

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Corequisite: CNSTR 101A

Transfer Status: CSU | Degree Applicable: AA/AS

Students study methods for finishing interior and exterior walls, floors and ceilings. Topics include interior and exterior wall coverings, insulation, door and window installations, and common construction defects as well as identify composite materials and applications. Students will utilize Building Information Modeling (BIM) as part of this course.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121451	101	Lec	TH	05:00 PM—06:50 PM	01/29/24— 05/24/24	CT112	Perez, Antonio
	101	Lab	TH	07:00 PM—10:05 PM	01/29/24— 05/24/24	CT112	Perez, Antonio
	101	Lab	TH	07:00 PM—10:05 PM	01/29/24— 05/24/24	CT112	Perez, Antonio

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

CNSTR 105 - Concrete Construction 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Prerequisite: CNSTR 101A with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students will be introduced to concepts associated with concrete and many applications of concrete in residential and commercial construction. Industry standards set by the American Concrete Institute and the American Society of Testing and Materials are presented. Students use transit and levels, set hubs and batter boards, construct concrete forms, bend reinforcing steel, and correctly mix, place, and finish concrete. Exposed aggregate, colored and stamped surface textures will be taught. Students will also study admixtures, curing methods, energy efficient and air entrained concrete, testing procedures, stair formwork, retaining walls, read blueprints and complete concrete materials estimates. Students will utilize Building Information Modeling (BIM) as part of this course.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121452	101	IH			01/29/24— 05/24/24	CANVAS	Lomax, David

	101	Lab	T	06:20 PM—09:25 PM	01/29/24— 05/24/24	CT111	Lomax, David

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course requires purchase of Cengage subscription and access to a laptop and/or smartphone.

CNSTR 107 - Principles of Contracting 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Transfer Status: CSU | Degree Applicable: AA/AS

Students will be introduced to the requirements and regulations necessary to start and run a successful construction company including common industry standards and preferred practices. Topics include: licensing requirements (all classifications), federal, state, local and environmental regulations, insurance and contract obligations, business plans, marketing, accounting, computerized tracking of the above items, business forms, tax and payroll requirements, change orders, mechanics lien law, scheduling, working with sub contractors, business ethics and personnel hiring. Students will utilize Building Information Modeling (BIM) as part of this course.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121453	101	Lec	TH	06:50 PM—09:55 PM	01/29/24— 05/24/24	CT114	Lomax, David

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. Course requires purchase of Cengage subscription and access to a laptop and/or smartphone.

CNSTR 110 - BIM 3.00 Units

Credit by Exam: Yes ***Grading:*** L | ***Advisory Level*** — ***Read:*** *3* | ***Write:*** *3* | ***Math:*** *1*

Recommended: Completion of CNSTR 106

Transfer Status: CSU | Degree Applicable: AA/AS

Students will prepare working drawings utilizing the Building Information Modeling (BIM) program from which building structures will be designed. Students will participate in BIM to collaborate with other students and disciplines within the Construction Department in designing their projects to include designing, planning room areas, elevations, construction, and estimating building cost.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121454	101	IO			01/29/24— 05/24/24	CANVAS	Harlan, Richard
	101	IO			01/29/24— 05/24/24	CANVAS	Harlan, Richard

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Autodesk Revit 2024.

CNSTR 116 - Estimating 3.00 Units

Credit by Exam: Yes ***Grading:*** L | ***Advisory Level*** — ***Read:*** *3* | ***Write:*** *3* | ***Math:*** *1*

Transfer Status: CSU | Degree Applicable: AA/AS

Students will be introduced to the basic concepts of construction cost estimating and how to estimate the quantity of labor and materials needed, as well as overhead, management and profit, and to determine the cost of a construction project. Students will work from actual plans to calculate the cost of trade and subcontract work, transportation, insurance, and permits for residential and commercial projects. Students will also become familiar with estimating energy efficient construction materials and specifications. Students will utilize Building Information Modeling (BIM) as part of this course.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121455	101	IO			01/29/24— 05/24/24	CANVAS	Lomax, David

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course requires purchase of Cengage subscription and access to a laptop and/or smartphone.

CNSTR 118 - Project Mgt for Construction 3.00 Units

Grading: L | ***Advisory Level*** — ***Read:*** *3* | ***Write:*** *3* | ***Math:*** *1*

Transfer Status: CSU | Degree Applicable: AA/AS

Students will be introduced to project management. Students will assess and solve a variety of construction-related problems while working from Building Information Modeling (BIM) drawings created by students. Topics will include scope of projects, safety, estimating, scheduling, cost control, and construction law.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121456	101	IH			01/29/24— 05/24/24	CANVAS	Lomax, David
	101	Lec	TH	05:30 PM—06:40 PM	01/29/24— 05/24/24	CT114	Lomax, David

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course requires purchase of Cengage subscription and access to a laptop and/or smartphone.

CNSTR 500 - Bldg Trades Apprenticeship 1 0.00 Units

Grading: N | ***Advisory Level*** — ***Read:*** *2* | ***Write:*** *2* | ***Math:*** *0*

Transfer Status: None | Degree Applicable: NAA

Students interested in becoming a union construction worker are introduced to the apprenticeship programs of the North American Building Trades Unions. Students will receive an overview of the building trades and construction industry, apprenticeship programs, as well as skills in construction math, safety awareness, and proper use of basic hand tools. Field trips may be included.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121827	102	Lec	TWTHF	08:00 AM—10:25 AM	02/13/24— 03/15/24	OFC	Perez, Antonio

This course is part of the PG&E Power Pathways.

CNSTR 501 - Bldg Trades Apprenticeship 2 0.00 Units

Grading: N | ***Advisory Level*** — ***Read:*** *2* | ***Write:*** *2* | ***Math:*** *0*

Recommended: Completion of CNSTR 500.

Transfer Status: None | Degree Applicable: NAA

Students interested in becoming a union construction worker increase their knowledge of apprenticeship program of the North American Building Trades Union. They will continue to learn contextualized construction math, history of labor unions,

trades available, and gain awareness in workplace diversity. Students acquire skills to earn ASHI - approved adult CPR, AED and Basic First Aid certification. Field trips may be included.

COS 110A - Cosmetology Fundamentals 1 9.50 Units

Grading: O **|** ***Advisory Level —*** ***Read:*** **|** ***Write:*** **|** ***Math:***

Prerequisite: Students must first apply to and be admitted to the Cosmetology program. Program application, fees, and other pre-registration activities are outlined in the Cosmetology program handbook and updated annually. Per SJECCD Administrative Proced

Transfer Status: None | Degree Applicable: AS

Students will be introduced to the field of cosmetology, including history, career paths, professional image, and communication skills needed in a professional salon setting. Students focus on the theoretical structure, growth, diseases, disorders and infection control of hair, skin, and nails. Fundamental content on chemistry will enable students to apply chemical products to scalp care, hair care, skin care and nail care. Fundamental procedures include scalp treatments, haircutting, hairstyling, facials, manicures and pedicures. This course, along with COS 110B, 120A, 120B, and 125, meets the GE lab science requirement only for a Cosmetology AS degree.

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

COS 110B - Cosmetology Fundamentals 2 9.50 Units

Grading: O **|** ***Advisory Level —*** ***Read:*** **|** ***Write:*** **|** ***Math:***

Prerequisite: Students must first apply to and be admitted to the Cosmetology program. Program application, fees, and other pre-registration activities are outlined in the Cosmetology program handbook and updated annually. Per SJECCD Administrative Proced

Transfer Status: None | Degree Applicable: AS

Students explore theoretical and practice applications of chemistry, which include organic and inorganic chemistry, different states of matter, the meaning of redox, the difference between pure and physical mixtures, suspension and emulsion, and pH scale. Students engage with chemical texturing services including, permanent waving, chemical hair relaxing, and Soft Perm. Students learn effective procedures and practices for haircoloring, hair removal, and facial makeup. This course, along with COS 110A, 120A, 120B, and 125, meets the GE lab science requirement only for a Cosmetology AS degree.

COS 130A - Esthetics I 11.00 Units

Grading: L **|** ***Advisory Level —*** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Prerequisite: Prior to registering, students must attend orientation.

Transfer Status: None | Degree Applicable: AS

Students will acquire the skills required to render professional services as an Esthetician. Students are provided with basic knowledge of the theory and practice pertaining to esthetics and skin care. Theory and practical training includes professional image and ethics, sanitation, disinfection, and safety, standard massage, client consultation, skin analysis, and makeup color theory. Students begin to prepare for the State board examination to obtain the Esthetician license. Students are required to attend a field trip. Esthetics I is the first course in a sequence of two in which students are required to complete 300 hours of practice on one another. Prior to registering, students must attend orientation.

DANCE 002 - Dance Appreciation 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *4* **|** ***Write:*** *4* **|** ***Math:*** *0*

Recommended: A solid command of the English language, particularly strong writing skills

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will explore dance from an aesthetic, historic, and cultural point of view. Students will examine the elements of dance including body, space, time, and dynamic qualities and develop a vocabulary with which to analyze and write critically about dance. Dance will be explored in many of its genres including social dance, jazz dance, ballet, modern, and dance from cultures around the globe from historical and contemporary perspectives. Attendance at a live dance performance may be required.

121014	101	IO			01/29/24— 05/24/24	CANVAS	McCall, Amber

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This course requires purchase of Course Orbit access code.

121523	102	Lec	TTH	01:25 PM—02:50 PM	01/30/24— 05/23/24	MIL-C2	Abohatab, Carol

This is a dual-enrollment section offered at Milpitas High School. It is reserved for students of this high school only. Course uses Canvas and Course Orbit. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

DANCE 010 - Ballet, Beginning 1 1.00 Units

Grading: O **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Recommended: Completion of DANCE 009 or previous dance experience

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students focus on the beginning level of ballet technique while learning Classical ballet terminology through barre and centre work. Students will explore principles of alignment, port de bras, coordination, and musicality while developing strength, flexibility, control, and performance quality. The student will gain an appreciation of their unique bodies in relation to ballet as a classical art form. Attendance at a live dance performance may be required. It is recommended that students take DANCE 009, Ballet Fundamentals, or have some previous dance experience before taking this course.

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a LTC (low textbook cost) section. If there is a required textbook, you will be able to access it online or purchase a hard copy for $40 or less.

DANCE 032 - Choreography 1.50 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Recommended: Completion of any two of the following dance courses: DANCE 010 or DANCE 011 or DANCE 020 or DANCE 021 or DANCE 050 or DANCE 051

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will be introduced to the principles and practical applications of dance composition. Students will build dance literacy using the Language of Dance® motif notation to explore concepts of body, space, time, energy, relating, rhythm, form, and phrasing as a means to create contemporary dance choreography. Students investigate the meaning and aesthetics of movement through improvisations, solos, and small group choreography as a form of self-expression.

DANCE 050 - Modern Dance, Beginning 1 1.00 Units

Grading: O **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Recommended: DANCE 049, or previous dance experience

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students develop artistry and technique of modern dance at the beginning level. The student will learn beginning positions, gestures, traveling and jumping steps, turns and level changes, and spatial orientation. The students will will gain an appreciation of their unique bodies in relation to dance as an expressive art form. It is recommended that students take DANCE 049, Modern Dance, Fundamentals, or have some previous dance experience before taking the class. Attendance at a live dance performance may be required.

	121028	101	Lab	TTH	09:15 AM—10:35 AM	01/29/24— 05/24/24	A206	McCall, Amber

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

DANCE 050B - Modern Dance, Beginning 2 1.00 Units

Grading: O **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Recommended: DANCE 050B with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students will refine the technique of modern dance at the beginning 2 level. The students will investigate beginning level sequences, integrating positions, gestures, traveling, springs, turns, level changes and spatial orientations. The students will gain an appreciation of their unique bodies in relation to dance as an expressive art form. Students will be introduced to the aesthetic, cultural, and historical contexts of modern dance.

DANCE 051 - Modern Dance, Intermediate 1 1.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: DANCE 050 with C or better, or assessment based on instructor evaluation

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students develop artistry and technique of modern dance at the intermediate level. The students will learn positions, gestures, traveling and jumping steps, turns, level changes and spatial orientation. The student will work towards a deeper level of artistry and expression through musicality and dynamic qualities of movement. The students will gain an understanding and appreciation of their unique bodies in relation to dance as an expressive art form. Attendance at a live dance performance may be required.

DENT 151 - Dental Anatomy and Vital Signs 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: Proof of current Basic Life Support (BLS) certification from the American Heart Association or American Red Cross

Corequisite: DENT 152 and DENT 153

Transfer Status: None | Degree Applicable: AS

Students are introduced to the general principles and basic concepts of anatomy and physiology of the human body with emphasis on the structures of the head and neck, oral cavity, human dentition, tooth morphology, oral embryology and histology and how each component interrelates to the body systems. Students will acquire the skills necessary to obtain a patient's medical and dental health history and vital signs. With the use of diagnostic techniques, students will demonstrate on a patient a clinical examination and chart findings. Students will also be introduced on how to respond and manage a dental emergency. This course meets the lab science requirement for Dental Assisting majors only.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

DENT 152 - Beginning Dental Assist & Ic 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Corequisite: DENT 151 and DENT 153

Transfer Status: None | Degree Applicable: AS

Students will learn in-depth principles and concepts of disease transmission, OSHA regulations, and infection control recommendations by the CDC that meet the Dental Board of California's requirement for licensing. Students are introduced to microbiology and diseases caused by specific pathogens. Principles and techniques in sterilization and disinfection of instruments and equipment are covered in-depth. Students learn how to use and maintain dental operatory equipment, position operator, assistant, and patient, set-up, instrument transfer, soft tissue retraction methods, and oral evacuation skills. Properties of gypsum dental materials are presented and models of human dentition are constructed using gypsum materials.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

DENT 154 - Radiation Safety 1 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: DENT 151 and DENT 152 and DENT 153 all with C or better

Corequisite: DENT 155 and DENT 156

Transfer Status: None | Degree Applicable: AS

This highly technical course prepares the student to take diagnostically effective radiographic images. The student will learn the principles and biological effects of radiation, components of the dental radiographic equipment, intra-oral exposure techniques, radiation safety, film processing, mounting, and infection control procedures used when exposing radiographs on a mannequin. Students will also be introduced to digital radiography software and techniques. According to the Dental Board of California, students must pass the written exam with 75% or higher before beginning radiographic exposures on patients.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121503	101	Lec	MW	08:30 AM—10:20 AM	04/01/24— 05/22/24	T515	Stodulka, Jitka

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

DENT 155 - Basic Chairside Assisting 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: DENT 151 and DENT 152 and DENT 153, all with C or better

Corequisite: DENT 154 and DENT 156

Transfer Status: None | Degree Applicable: AS

Students will focus on the principles and skills of four-handed dentistry, during operative procedures performed in a general dental office. Concepts, preclinical instructions and directives include preparing and assisting for the administration of local anesthetic, placement of dental dam and matrix systems, instrument identification and transfer, burs and handpiece maintenance, manipulation and transfer of dental materials, and assisting during restorative procedures. Students will also learn the basics of irreversible dental materials and taking of alginate impressions on typodonts.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121504	101	Lec	TTH	08:30 AM—10:20 AM	04/02/24— 05/23/24	T513	Morgan, Paula

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

DENT 156 - Prosthodontics and Lab 1.50 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: DENT 151 and DENT 152 and DENT 153, all with C or better

Corequisite: DENT 154 and DENT 155

Transfer Status: None | Degree Applicable: AS

Students build on chairside assisting and manipulation of dental materials skills learned in previous courses. Emphasis is on properties, uses, and handling of dental materials and practices associated with prosthodontic procedures. The course will introduce RDA skills and the student will demonstrate the technical skills and knowledge necessary to assist and/or work independently in manipulating dental materials, fabricating, custom provisional crowns and bridges, custom trays, assembling a facebow, and manipulation of other bite registration materials. Students will get familiarization with taking digital impressions,and assist with obtaining final impressions. Students will get an introduction with using a model trimmer to cut gypsum models.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121505	101	Lec	F	08:30 AM—10:45 AM	04/12/24— 05/24/24	T515	Stodulka, Jitka

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

DENT 161 - Radiology 2 and Cp 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: DENT 154 and DENT 155 and DENT 156; all with C or better and current CPR Certification (Adult/Infant/Child)

Corequisite: DENT 162

Transfer Status: None | Degree Applicable: AS

Students will learn advanced digital radiography techniques, the edentulous patient, occlusal, panoramic radiography, and radiography for children. Concepts of pharmacology, and in-depth coverage of medical emergencies in the dental office are presented. The significance of patient management and adherence to legal protocols will be emphasized throughout the course. Students will be trained to perform coronal polishing on typodonts and patients, as well as produce full mouth surveys of dental radiographic images with minimal errors. Upon successful completion of this course, students will be issued the California Radiation Safety Certificate.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121506	101	Lec	MW	12:30 PM—02:35 PM	01/29/24— 03/20/24	T519	Bejarano, Alethea

	102	Lec	TH	09:15 AM—10:05 AM	04/01/24— 05/24/24	M102	Bhattacharyya, Jonali
	102	Lab	TH	10:15 AM—12:05 PM	04/01/24— 05/24/24	M102	Bhattacharyya, Jonali

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional

class-specific requirements, please email the course instructor.

DMA 002 - Introduction to Graphic Design 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **| *Math:***

Prerequisite: ART 012 with C or better

Recommended Completion of DMA 001.

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will be introduced to visual communications in the field of graphic design using Adobe Photoshop. Students will learn the history, theories, techniques, and practices of professional graphic designers, developing projects for traditional and emerging technologies. Topics will focus on developing conceptual, creative and technical abilities through projects that explore concept development, design principles, composition, layout, illustration, photography, typography, and symbology. Exercises will emphasize a comprehensive overview of Adobe Photoshop providing students with extensive hands-on training on real-world projects. This course is replacing PHOTO 076- Photoshop 1.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121222	101	IO			04/01/24— 05/24/24	CANVAS	Bhattacharyya, Jonali

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

DMA 003 - Intro to Typography 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **| *Math:***

Prerequisite: ART 012 with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will learn the fundamental concepts and practices of creating Computer Graphics, focusing in typography and layout for visual communications in the Graphic Design industry. Students will explore the evolution and classification of letterforms from ancient to contemporary, and feature the principles of structure, format, legibility, and expression. Projects will feature digital media prints for marketing and branding, with an emphasis on the application of typography and composition, working with a variety of industry standard software programs for Computer Graphic Design like Adobe Illustrator, Photoshop, and InDesign. This course is replacing ART 072- Computer Graphics.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121510	101	IO			01/29/24— 03/22/24	CANVAS	Bhattacharyya, Jonali

	101	IO			01/29/24— 03/22/24	CANVAS	Bhattacharyya, Jonali

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This course usees Adobe Creative Cloud.

DMA 005 - Motion Graphics I 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **| *Math:***

Prerequisite: DMA 001 or ART 071 with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will learn computer-based motion graphics for video production using the principles of graphic design, animation and effects. Students will create multimedia projects using videos, illustrations, images, animation, kinetic typography, audio, effects and cinematic techniques. Exercises will utilize design principles, typography and composition guidelines to create projects for branding, advertisement and entertainment.

Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Figma, FigJam, Miro. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

DMA 013 - Interaction Design & Prototype 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: DMA 001 or ART 071 with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will learn how to generate design ideas, techniques for quickly prototyping them, and how to use concept canvas to get feedback from other stakeholders like your teammates, clients, and users. Topics will include structured approaches for helping you understand your user base and their needs (e.g. contextual inquiry and design psychology), widely-employed prototyping and design methods such as low-fidelity and paper prototyping, and robust techniques for helping you evaluate your design choices. Students will create wireframes, interaction designs and prototypes.

ECE 020 - Observation and Assessment 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Prerequisite: FCS 070 and ECE 102 and ECE 108; all with C or better

Corequisite: ECE 108

Transfer Status: CSU | Degree Applicable: AA/AS

Students will learn the appropriate use of formal and informal observation tools, case study portfolios, recording, and rating systems. The use of multiple assessment and observation strategies, in various early childhood settings, will be covered. Emphasis will be on use of assessment strategies that inform and provide for developmentally appropriate curriculum. To ensure accurate observations and assessments, the importance of collaboration between teacher, families, and other professionals will be examined.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

ECE 101 - Introduction to Curriculum 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: FCS-070 with a C or better

Corequisite: ECE 102

Recommended Completion of ECE 102 and ECE 107

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will explore the major content areas in early childhood curriculum (birth to age 6) and plan, present, and evaluate activities in early childhood classrooms. This course provides developmentally appropriate teaching strategies based on observation and assessments across the curriculum, including: academic content areas; play, art, and creativity; and development of social-emotional, communication, and cognitive skills. Students will analyze their teaching experiences and utilize this knowledge to inform and improve skills in working with children. Off-site observations may be required.

ECE 101B - Practicum in ECE 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: FCS 070 and ECE 101 and ECE 102 and ECE 107; all with C or better, TB clearance, and fingerprinting clearance as required by California Department of Justice

Transfer Status: CSU | Degree Applicable: AA/AS

Students explore connections between theory and practice using child-centered, play-oriented approaches to teaching, learning and assessment, and knowledge of the major content areas in the early childhood curriculum. Planning, implementing, and evaluating experiences that promote positive development and learning for all young children will be emphasized. Students will utilize practical classroom experiences to demonstrate developmentally appropriate early childhood teaching competencies under the quality supervision of an ECE/CD (Early Childhood Education/Child Development) faculty and other qualified early education professionals. This course requires off-campus attendance at early childhood sites.

ECE 105 - Language Development for Child 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Recommended: Completion of ECE 102

Transfer Status: CSU | Degree Applicable: AA/AS

This course introduces students to language based activities in the early childhood education curriculum. Students will study topics including stages of language development, theories of language acquisition and the roles of parents and educators in promoting language related activities. Students will study how to plan, prepare and present a variety of appropriate activites to stimulate language development and usage. Children's books, poetry, storytelling, games, charts, puppetry, flannel boards, and the use of computer based technology will be introduced.

ECE 107 - Child, Family and Community 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Recommended: Completion of FCS 070

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will examine the developing child in a societal context focusing on the interrelationship of family, school, and community; emphasis will be on historical and social factors. Patterns of development, child-rearing, and the value of education in contemporary American society will be discussed. The processes of socialization and identity development will be highlighted. Community resources that foster the positive development of the child in the context of the family will be identified. This course meets licensing and permitting requirements for early education settings.

ECON 010B - Intro to Microeconomic Theory 3.00 Units

Grading: L | ***Advisory Level*** — ***Read:*** *3* | ***Write:*** *3* | ***Math:*** *0*

Prerequisite: MATH 111 with P grade

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to microeconomic theory including economic behavior of individual economic units such as consumers, firms, and resource owners. They will examine the market system as a means of solving problems in the production and distribution of goods and services in a society. Students analyze the effectiveness of the price system in providing the society with an equitable distribution of goods, services, and income. They will also study microeconomic problems such as monopoly power of big business and big unions, government regulations and consumer protection, the energy crisis, taxes, and welfare.

EMS 010 - EMT - B 6.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: American Heart Association CPR-Certification Healthcare Provider card, current throughout the length of the program, and student must be 18 years of age prior to first day of class per certification requirements

Corequisite: EMS 010

Recommended: Completion of MA 004, or equivalent knowledge in anatomy, physiology, and medical terminology

Transfer Status: None | Degree Applicable: AS

Students will acquire the theory, skills, and knowledge necessary to earn an EMT-B certificate of completion in compliance with Department of Transportation (DOT) standards. National Registry of Emergency Medical Technician (NREMT) skills testing is included in the course. Upon course completion the student must take a National Registry written exam through a NREMT approved testing site. This course meets state and national standards for EMT-B training and is approved by Santa Clara County Emergency Medical Services as preparation for EMT-B certification. Students must provide own transporation to a mandatory ride-along and clinical experience.

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

120600	102	IH			01/29/24— 05/24/24	CANVAS	Inguito, Kevin
	102	Lec	TH	10:45 AM—12:05 PM	01/29/24— 05/24/24	GE125	Inguito, Kevin

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120601	103	IH			01/29/24— 05/24/24	CANVAS	Kozlowski, Heidi
	103	Lec	W	06:15 PM—08:05 PM	01/29/24— 05/24/24	GE205	Kozlowski, Heidi

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a LTC (low textbook cost) section. If there is a required textbook, you will be able to access it online or purchase a hard copy for $40 or less.

120602	104	IO		01/29/24— 05/24/24	CANVAS	Blair, Michelle

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120603	105	IO		01/29/24— 05/24/24	CANVAS	Blair, Michelle

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120604	106	IO		02/12/24— 05/24/24	CANVAS	Torres, Noe

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120607	109	IO		02/12/24— 05/24/24	CANVAS	Torres, Noe

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

ENGL 001C - Critical Thinking/Composition 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *0* **|** ***Write:*** *0* **|** ***Math:***

Prerequisite: ENGL 001A with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will learn to identify the basic structures of arguments and the ways people use language to fortify or to falsify arguments. This course presents the techniques of critical reasoning and advanced composition. Students will analyze and demonstrate these techniques by writing and critiquing essays. This course is specifically designed to meet the IGETC critical thinking requirement.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120583	104	Lec	MW	10:15 AM—01:05 PM	04/01/24— 05/22/24	GE117	Maughn, James

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. ENGL 001A-109 and ENGL 001C-104 are part of a one semester accelerated learning community. Students should plan to enroll in both sections.

120609	101	Lec	MW	12:15 PM—01:35 PM	01/29/24— 05/24/24	B102	Griffin, Dedrick

ENGL 033 - Women in Literature 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: (ENGL 104 or ENGL 092) and (ENGL 102 or READ 101) or ESL 091; all with C or better or placement based on assessment

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will be introduced to literature focusing on images of women as depicted in drama, short stories, poetry, essays and novels. The relationship of self to characters in the literature will also be examined.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120624	101	IO			02/12/24— 05/24/24	CANVAS	Edwards, Marlise

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

ENGL 073 - Introduction to Shakespeare 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study Shakespeare as a major figure in literary history. Through examination of selected works, students will recognize the immense contribution Shakespeare's texts have had, and continue to have, in the modern world's literary, artistic, and cultural compositions. This course is designed to increase the awareness on the part of the student with regards to the contributions Shakespeare's works have had on society, and to increase the appreciation of those works' influence and artistic construction.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120625	101	IO			02/12/24— 05/24/24	CANVAS	Chapa, Aurelio

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

ENGL 079 - Memoir Writing 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: (ENGL 092 or ENGL 104) and (ENGL 102 or READ 101) or ESL 091; all with C or better or placement based on assessment

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study the characterics and techniques of memoir writing. They will analyze styles employed by authors in diverse autobiographical works. Students will incorporate this knowledge into their own autobiographical exercises.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120626	101	IH			02/15/24— 05/24/24	CANVAS	Adkins, Jan
	101	Lec	TH	10:45 AM—12:15 PM	02/15/24— 05/24/24	GE113	Adkins, Jan

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

ENGL 086B - Survey British Literature II 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:*** *0*

Prerequisite: (ENGL 092 or ENGL 104) and (ENGL 102 or READ 101), all with C or better.

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to British Literature from the 18th Century AD through the present day. Students will read and discuss examples of epic, lyric, drama, and prose writings.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120628	101	IO			02/12/24— 05/24/24	CANVAS	Brennan, Raymond

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

ENGL 120 - Composition Skills Support 2.00 Units

Grading: N **|** ***Advisory Level*** **—** ***Read:*** **|** ***Write:*** **|** ***Math:***

Corequisite: ENGL 001A

Transfer Status: None | Degree Applicable: NAA

Students will develop writing and critical thinking skills to enhance success in ENGL 001A. This is a supplemental support course for ENGL 001A. Students will practice a variety of writing and revision techniques and build research literacy. Topics may include essay organization, writing for an audience, using college level diction and tone, and self-reflective strategies for revision. This course must be taken concurrently with ENGL 001A.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120571	103	Lec	TTH	10:45 AM—11:35 AM	01/29/24— 05/24/24	B207	Stokes-Cobb, Jeannie

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This section is for students who choose embedded tutorial support when taking ENGL 001A. Students must enroll in both ENGL 001A-103 and ENGL 120-103. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

This section is for students who choose embedded tutorial support when taking ENGL 001A. Students must enroll in both ENGL 001A-119 and ENGL 120-119.

ENGR 003 - Introduction to Engineering 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *4*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will be introduced to the engineering profession and to the devices, processes, and techniques utilized in solving engineering problems. Students will learn modern engineering tools in hands-on and computer-based labs. They will further develop engineering leadership and team self-management skills. As an orientation to the engineering field, students will learn what engineers do and what guides their thinking, both analytically and ethically. Students will learn and employ research-driven, affective strategies for academic success. As they explore career and academic pathways, students will develop their long-term engineering goals and will leave with a detailed plan for success in the inspiring world of engineering.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

ENGR 006 - Engineering Graphics 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: MATH 022 or MATH 025 with a C or better, or placement based on assessment

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will learn how to communicate engineering designs through engineering drawings. Students will be introduced to 2-D and 3-D computer-aided design (CAD) software. Topics include sketching, orthographic projections, visualization skills, mechanical dimensioning and tolerancing practices, and the engineering design process.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121846	102	Lec	TTH	12:15 PM—01:20 PM	02/13/24— 05/23/24	M102	Mathapathi, Shivakumar
	102	Lab	TTH	01:30 PM—03:00 PM	02/13/24— 05/23/24	M102	Mathapathi, Shivakumar

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

ENGR 008 - Programming in MATLAB 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: MATH 071 or MATH 071H

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will learn computer-based problem-solving methods relevant to science and engineering utilizing the MATLAB environment. This course draws from practical applications in engineering, physics, and mathematics. Topics include procedural and object-oriented programming, numerical analysis, and data structures.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120351	101	Lec	MW	12:15 PM—01:05 PM	01/29/24— 05/24/24	M102	Nguyen, Alexander
	101	Lab	MW	01:10 PM—02:30 PM	01/29/24— 05/24/24	M102	Nguyen, Alexander

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

ENGR 032 - Statics 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: PHYS 004A and MATH 072 with a C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will analyze engineering structures in equilibrium. This is the first course in engineering mechanics and covers principles of statics as applied to particles and rigid bodies in two and three dimensions under concentrated and distributed force systems. Topics include properties of forces, moments, couples and resultants; two- and three-dimensional force systems, analysis of trusses, and beams; distributed forces, shear and bending moment diagrams, center of gravity, centroids, friction, and area and mass moments of inertia.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120352	101	Lec	MW	03:15 PM—04:35 PM	01/29/24— 05/24/24	S203	Huang, Yiyun

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

ENVIR 010 - Environmental Science 4.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

In this interdisciplinary course, students will examine the foundations for a sustainable future and interaction between human civilization and the environment. Students will explore the major issues facing our planet from a scientific perspective, focusing on physical, chemical, and biological processes within the Earth system, the interaction between humans and these processes, and the role of science in finding sustainable solutions. Topics include environmental policies, population growth, resource exploitation, ecological principles, biodiversity, climate change, sustainability, renewable and non-renewable energy, water resources, air and water pollution, and solid waste management.

ESL 099 - Advanced Reading and Writing 6.00 Units

Grading: K **|** ***Advisory Level — Read:*** **|** ***Write:*** **|** ***Math:***

Prerequisite: ESL 302 with P grade

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will write a variety of texts that exhibit depth, relevance, and complexity in idea development. Students will also apply literal, inferential, interpretive reading, and critical thinking skills, likewise, enhance skills in vocabulary comprehension and acquisition and the advanced level of language learning. Reading materials will highlight the human condition and cultural representation, especially those of immigrant cultures within the United States, and will include literary works, articles, essays, and a technical report. This course is designed for non-native speakers of English in preparation for ENGL 1A-English Composition.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120632	101	IH			01/29/24— 05/24/24	CANVAS	Sanchez, Claudio

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. A final in-person proctored exam is on Friday May 17, 2024 from 9:00 AM to 12:00 PM. This course uses Respondus Lockdown Browser. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

ESL 302 - Intro College Rdg and Wrtg 6.00 Units

Grading: K **|** ***Advisory Level — Read:*** *0* **|** ***Write:*** *0* **|** ***Math:*** *0*

Prerequisite: ESL 312 and ESL 313, both with P grade or placement based on assessment

Transfer Status: None | Degree Applicable: NAA

Students will focus on writing essays that exhibit the depth and complexity of low-advanced language level academic texts. They will study language elements used to present clear and effective thesis statements. They will evaluate a variety of texts that demonstrate the ways writers express ideas for a variety of purposes and intent. Students will also continue to improve skills in academic and extensive reading, critical thinking, and vocabulary acquisition. Reading materials will highlight current issues and topics of interest across cultures including articles, essays, and literary works. This course is designed for non-native speakers of English two levels below English 1A.

Recommended: Concurrent enrollment in (ESL 312 or ESL 313 or ESL 314) and ESL 207 is strongly recommended.

Transfer Status: None | Degree Applicable: NAA

Students develop native-like speech in American English. They utilize the International Phonetic Alphabet to distinguish the sounds of English and produce natural-sounding speech in connected discourse. They learn different intonation, stress, and pitch patterns to change sentence focus and to signal middle and end of sentences. They use contractions and reductions and assimilate sounds to produce natural speech. Multimedia and online resources supplement the course.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

ETH 031 - Social Justice Chicanx Comm 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Recommended: Completion of ETH 030

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will learn the political, economic, and social justice issues facing Chicanx communities in the United States. Theoretical foundations and concepts discussed in the course include race and racism, intersectionality, decolonization, imperialism, anti-racism, white-supremacy, self-determination, and liberation. Particular emphasis will be focused on current and structural issues such as educational equity, health care, climate justice, immigrant rights, women's rights, labor rights, and the criminal justice system.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120865	101	Lec	F	09:00 AM—12:05 PM	01/29/24— 05/24/24	B102	Gamboa, Jacqueline

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

ETH 032 - Intro to Chicanx/Latinx Music 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** **|** ***Write:*** **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to the diverse musical influences that have shaped the Chicanx/Latinx experience in the United States. Particular focus will be placed on African, Indigenous and European origins. Cultural influences such as Afro-Caribbean, Salsa, Son Jarocho, Norteno/Tejano, Corridos, Chicano Rock and Hip Hop will be analyzed with an emphasis on seminal works and their impact on Chicanx/Latinx musical experiences and identity formation.

FCS 019 - Nutrition 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to basic nutrition principles, including physiological, psychological, and sociological considerations. Students will analyze the human diet in relation to health, lifestyle choices, personal behaviors, and disease prevention. Individual recommended nutrient intake, the body's use of nutrients, and optimum dietary health across the lifespan will be discussed. Students will also examine the influence of culture, food supply, food choices, and nutritional status, as well as socioeconomic conditions, food fads, and diet misinformation.

GEOL 010 - Physical Geology 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to geologic processes related to volcanoes, earthquakes, landslides, erosion, tsunami, and Earth resources. The relationship of these processes to each other and to overarching geologic concepts, such as plate tectonics, the rock cycle and the water cycle will be examined. Major focuses include communicating scientific concepts and the impact these processes have on civilization. The scientific method is illustrated as it relates to analyzing geologic problems. Field trips may be required.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120375	101	IH			01/29/24— 05/24/24	CANVAS	Smay, Jessica

GEOL 010L - Physical Geology Laboratory 1.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerquisite: GEOL 010L with C or better

Corequisite: Previous or concurrent enrollment in GEOL 010

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study minerals, rocks, and sediments and the processes that form them. These and other geologic processes will be related to plate tectonics, the rock cycle and the water cycle. A major focus is on using the scientific method to study

these geologic processes and concepts. Projects will include using technology to conduct experiments that model geologic processes, interpreting maps and other images, and studying geologic processes in the field. Field trips may be required.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120376	101	Lab	M	10:30 AM—01:35 PM	01/29/24— 05/24/24	S213	Smay, Jessica

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you. This course uses Google Earth.

GEOL 015 - Earth Science 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students survey the major fields of earth science including geology, astronomy, oceanography and meteorology. Plate tectonics, the lives of stars, earthquakes, tides, and extreme weather will be covered. The relationship of these processes to each other and to overarching earth science concepts, such as the rock cycle, the water cycle, and the evolution of the universe will be examined. Major focuses include communicating scientific concepts and the impact these processes have on civilization. The scientific method is illustrated as it relates to analyzing earth science problems. Field trips may be required.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120377	101	IO			01/29/24— 05/24/24	CANVAS	Christen, Oliver

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

GEOL 015L - Earth Science Laboratory 1.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: GEOL 015L with C or better

Corequisite: Previous or concurrent enrollment in GEOL 015

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study the highlights of geology, astronomy, oceanography, and meteorology. Students will perform laboratory experiments and modeling activities covering topics such as plate tectonics, the lives of stars, earthquakes, tides and extreme weather. Students will examine the relationship of these processes to each other and to overarching earth science concepts such as the rock and water cycles, ocean currents, weather patterns, and the solar system. A major focus is on using the scientific method to study these processes and concepts. Field trips may be required.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120378	101	IO			01/29/24— 05/24/24	CANVAS	Christen, Oliver

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

GLOBL 001 - Introduction to Global Studies 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:*** *0*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to the emerging field of Global Studies. Students gain an interdisciplinary view of globalization and global perspectives that include consideration of social, cultural, religious, political, and geographical factors that affect the world community. Significant economic trends and environmental issues are addressed.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120740	101	IH			01/29/24— 05/24/24	CANVAS	Schultz, William

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

GLOBL 007 - Global Citizenship/Civics 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will acquire knowledge and skills to gain a better understanding of multicultural perspectives on national and transnational political issues, the global economy, and worldwide social development. A major focus of this course is on what it means to be a responsible citizen of the world. Students will be encouraged to envision and effect positive change in their communities and develop an understanding of how local, national, and global challenges affect them, and how their actions affect others in the world.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120742	101	IO			01/29/24— 05/24/24	CANVAS	Bernstein, Dana

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a LTC (low textbook cost) section. If there is a required textbook, you will be able to access it online or purchase a hard copy for $40 or less.

GUIDE 010 - Transfer Success 1.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will engage in a comprehensive review of the transfer process, including a study of higher education systems, transfer admissions practices, major preparation, financial planning, and current topics related to transfer. This course offers students an opportunity to develop an individualized transfer plan in preparation for transfer to a 4-year college.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

HSCI 008 - Medical Terminology 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Transfer Status: CSU | Degree Applicable: AA/AS

Students will receive a thorough grounding in basic medical terminology through a study of root words, prefixes and suffixes. Medical terminology is the study of the principles of medical word building to help the student develop the extensive medical vocabulary used in health care occupations. The study focuses on correct pronunciation, spelling and use of medical terms. Students will develop a base knowledge of body systems through the further study of pathology, laboratory tests, and diagnostic and treatment procedures.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

IRON 100 - Orientation and Trade Science 2.50 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *2* **|** ***Write:*** *2* **|** ***Math:*** *0*

Corequisite: Student must be a registered Ironworker Apprentice with a participating employer

Transfer Status: None | Degree Applicable: NAA

This course is an introduction to Ironworker's Apprenticeship trade science. Apprentices will study Ironworker's rules and regulations, record keeping, evaluations and advancement, work ethic, sexual harassment avoidance training, basic tools, safety, introduction to construction math, green construction practices, and fire watch and traffic flagger training. They will become acquainted with specifications that constitute a safe and healthful working environment. Apprentices will also be introduced to topics including lifting, measuring, basic knots, green construction, flagger, and related safety.

IRON 138 - Work Experience 16.00V Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Corequisite: Must be a registered Ironworker apprentice with a participating employer for the minimum number of hours per unit.

Transfer Status: None | Degree Applicable: NAA

Work Experience is designed for students who work or volunteer in a field related to their career major. Students are required to provide evidence that they are enrolled in a career program (e.g., education plan or coursework in a career/technical subject area). Students can earn one unit of credit for each 60 hours of unpaid volunteer time or 75 hours of paid work during the semester. Students can repeat Career/Technical Work Experience, combined with General Work Experience, or alone, up to a maximum of 16 units. Internship/job placement is not guaranteed.

JAPAN 001A - Elementary Japanese 1 5.00 Units

Grading: O **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will develop the basic ability to understand, speak, read and write the Japanese language. Students will acquire vocabulary and grammar knowledge to achieve novice-level proficiency in Japanese language skills. Students also will study cultural aspects of Japan. This course corresponds to two years of high school study and is not recommended for native speakers of Japanese.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120516	101	IH			01/29/24— 05/24/24	CANVAS	Fukui, Ikuko
	101	Lec	M	11:00 AM—12:30 PM	01/29/24— 05/24/24	GE121	Fukui, Ikuko

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120517	102	IO			01/29/24— 05/24/24	CANVAS	Fukui, Ikuko

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

	121541	103	Lec	MWF	01:25 PM—03:15 PM	01/29/24— 05/24/24	MIL-L2	Naito, Chikako

This is a dual-enrollment section offered at Milpitas High School. It is reserved for students of this high school only. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

JAPAN 001B - Elementary Japanese 2 5.00 Units

Grading: O **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: JAPAN 001A with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

This course is a continuation of Elementary Japanese 001A. Students will develop basic ability to understand, speak, read and write the Japanese language. Students will acquire vocabulary and grammar knowledge to achieve mid to advanced novice level proficiency in Japanese language skills. Students also will study cultural aspects of Japan.

Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

JOURN 032A - Media Production 1 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Recommended: Successful completion of ENGL 092, consumption of commercial news, willingness to commit the time needed to produce the newspaper

Transfer Status: CSU | Degree Applicable: AA/AS

With student leadership, students produce a publication that's by and for students. Students will focus on the practical application of writing and producing news using the City College Times, the college student newspaper, in print, online, and social media. Students will work in the following areas: researching, writing, and editing articles; taking photographs and creating graphic illustrations; developing multimedia stories; or designing pages, and advertising. Ethics and legal aspects of communication will also be covered. Students are encouraged to consume commercial news on a daily basis and to commit the time needed to produce the news publication.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120521	101	Lec	MW	09:15 AM—10:20 AM	02/12/24— 05/22/24	T302	McArdle-Hankin, Christian
	101	Lab	MW	10:30 AM—12:05 PM	02/12/24— 05/22/24	T302	McArdle-Hankin, Christian

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

JOURN 032B - Media Production 2 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: JOURN 032A with C or better

Recommended: Successful completion of ENGL 092, consumption of commercial news, willingness to commit the time needed to produce the newspaper, photography background

Transfer Status: CSU | Degree Applicable: AA/AS

Students continue to produce the campus newspaper for students with student leadership. They will continue to develop writing and production techniques and take on a leadership and management role in this second level media production course. They will use the City College Times, the college newspaper, in print, online, and emerging media to publish their weekly news assignments. Students will gain practical experience in the following areas: researching, writing, and editing articles, taking photographs and creating graphic illustrations; developing multimedia stories; designing, and advertising for various multimedia platforms, including print, broadcast, and online. Ethics and legal aspects of communication and media leadership/management are also covered. Students are encouraged to consume commercial news on a daily basis and to commit the time needed to produce the news publication.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

LASER 098 - Directed Study 4.00 Units

Grading: O **|** ***Advisory Level — Read:*** *2* **|** ***Write:*** *2* **|** ***Math:***

Prerequisite: LASER 102 with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Individual or small groups of students who would benefit from Independent Study under the direction of faculty members in specific or related disciplines may develop individualized learning contracts designed to enhance their individual instructional programs. The students and the faculty member in consultation with the Division Dean will determine appropriate learning objectives and activities as well as the number of units to be earned. Instructions and the Learning Contract forms are available in the Division office. Repeatable to a maximum of 9 units across all disciplines.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
122319	101				02/26/24— 05/24/24		Sukuta, Sydney

Directed studies section for Laser 101

LASER 100 - Laser Fundamentals 4.00 Units

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Transfer Status: CSU | Degree Applicable: AA/AS

Students will study the principles of photonics and learn the techniques and skills typically performed by an entry-level laser/electro-optics technician. Topics covered include optics and laser principles, laser performance analysis, and Good Laser Lab and Manufacturing Practices (GLLMP). LASER 100 is the introductory course leading to certificates and an AS Degree in Laser Technology.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121848	103	Lec	MTWTH	05:00 PM—06:20 PM	02/12/24— 04/11/24	114	Sukuta, Sydney
	103	Lab	MTWTH	06:30 PM—07:50 PM	02/12/24— 04/11/24	113	Sukuta, Sydney

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

LASER 101 - Rapid Lzr Optic 3D Prototyping 4.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: LASER 100 with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students will learn to prototype opto-mechanic parts using 3-D Computer-Aided Design (CAD) software and 3-D printers. Students study rapid 3-D prototyping, and print quality optimization of the parts. Course emphasis is on parts typically encountered on laser lab workbenches such as posts, rails, and mounts. This is the second course leading to certificates and an AS degree in Laser Technology.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121669	101	Lec	MTWTH	12:30 PM—01:50 PM	01/29/24— 03/21/24	114	Sukuta, Sydney
	101	Lab	MTWTH	02:00 PM—03:20 PM	01/29/24— 03/21/24	113	Sukuta, Sydney

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

LASER 102 - Intermediate Laser Technology 4.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: LASER 100 with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students learn the fundamentals of solid state laser technology and introductory theory of pulsed laser systems. Students also learn nonlinear optics, harmonics generation, and principles for q-switching. This class is one of the required courses leading to certificates and an AS degree in Laser Technology.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121670	101	Lec	MTWTH	09:00 AM—10:20 AM	04/01/24— 05/23/24	114	Sukuta, Sydney
	101	Lab	MTWTH	10:30 AM—11:50 AM	04/01/24— 05/23/24	113	Sukuta, Sydney
	101	Lab	MTWTH	10:30 AM—11:50 AM	04/01/24— 05/23/24	113	Sukuta, Sydney

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

LASER 103 - Advanced Laser Technology 4.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: LASER 100 with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students study in-depth theory and treatment of pulsed and solid state lasers. Students will learn to assemble, troubleshoot, repair, and characterize a simple laser for optimal performance and determine laser and laser analyzer tolerances to establish their scopes and limitations.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

MA 020 - Physical Exam Procedures 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Prerequisite: MA 006 and HSCI 008 and (BIOL 071 or BIOL 020 or MA 004) all with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students will demonstrate a variety of clinical tasks in the medical assisting field by becoming active participants in the learner-centered environment. Skill competencies include preparing the exam room, obtaining patient medical histories, taking vital signs, assisting with physical examinations, instruments for examination, nutritional education planning, orthopedic bracing/casting, performing electrocardiograms, handling medical emergencies, pulmonary function testing, physical therapy, and explore the principles of radiology.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121485	101	Slec	M	01:15 PM—03:05 PM	01/29/24— 05/24/24	ZOOM	Golubev, Denis
	101	Lab	W	01:15 PM—04:20 PM	01/29/24— 05/24/24	T518	Golubev, Denis

This is a synchronous class with some meetings in person on campus at the times listed and some online Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

MA 021 - Medical Office Lab Procedures 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: MA 006 and HSCI 008 and (BIOL 071 or BIOL 020 or MA 004) all with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students will learn to execute and evaluate typical laboratory Clinical Laboratory Improvement Amendment Act (CLIA)-waived tests performed in a medical office or general lab setting by becoming active participants in a learner-centered environment. Specimen collection and handling, laboratory safety, analysis techniques, quality assurance and control, and the interpretation of normal and abnormal lab values are emphasized. Students will also acquire phlebotomy skills.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121486	101	Slec	M	05:30 PM—07:20 PM	01/29/24— 05/24/24	ZOOM	Tatarski, Georgi
	101	Lab	W	05:30 PM—08:35 PM	01/29/24— 05/24/24	T518	Tatarski, Georgi

This is a synchronous class with some meetings in person on campus at the times listed and some online Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course uses Microsoft Office. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

MA 022 - Med Asepsis & Surg Procedures 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: MA 006 and HSCI 008 and (BIOL 071 or BIOL 020 or MA 004) all with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students will study the theory and practice involved in assisting with minor office surgeries and wound care by becoming active participants in a learner-centered environment. This course also includes instrument sterilization procedures, sterile technique, and sterile field protocols.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121487	101	Slec	T	09:15 AM—11:05 AM	01/29/24— 05/24/24	ZOOM	Bautista, Rosemary

This is a synchronous class with some meetings in person on campus at the times listed and some online Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

MA 023 - Medical Admin for Med Assist 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: MA 006 and HSCI 008 and (BIOL 071 or BIOL 020 or MA 004) all with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students will study the theory and practice of oral, topical, and parenteral medication administration. Students will learn injection safety, techniques, and site selection in a learner-centered environment. Medication dosage calculations are emphasized as well as the handling of possible medication side effects and emergencies pertaining to medication administration.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121488	101	Slec	T	05:30 PM—07:00 PM	01/29/24— 05/24/24	ZOOM	Golubev, Denis

This is a synchronous class with some meetings in person on campus at the times listed and some online Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

MA 024 - Med Assist Clinical Experience 4.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: MA 005 and MA 020 and MA 021 and MA 022 and MA 023; all with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students will acquire medical back office clinical experience under the supervision of a licensed healthcare professional in a board-certified medical office setting or outpatient facility. Students will also gain competencies in professional communication and patient instruction within the legal boundaries of a practicing Medical Assistant in the State of California. Students will be required to complete a minimum of 160 hours of unpaid medical office experience.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121568	101	Lab			01/29/24— 05/24/24	OFC	Kahlon, Jagrup

	101	Slec	T	06:00 PM—06:50 PM	05/07/24— 05/07/24	ZOOM	Kahlon, Jagrup

This is a synchronous class with some meetings in person at the times listed and some online Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

MA 500A - Fund of Medical Terminology I 0.00 Units

Grading: N **|** ***Advisory Level*** **—** ***Read:*** **|** ***Write:*** **|** ***Math:***

Transfer Status: None | Degree Applicable: NONC

Students will define, build, and analyze terms as well as develop a vocabulary of combining forms, prefixes, and suffixes. They develop the ability to pronounce and spell terms correctly and use to them in an appropriate context. This is the first course exposing students to the language of Medicine. It is highly recommended that students successfully complete this course before taking MA 500B. Open entry/Open exit.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121489	101	Slec	MW	06:00 PM—09:15 PM	02/12/24— 02/28/24	ZOOM	Kahlon, Inderdeep

This is a synchronous, online class with scheduled Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

MA 500B - Fund of Medical Terminology II 0.00 Units

Grading: N **|** ***Advisory Level — Read: | Write: | Math:***

Transfer Status: None | Degree Applicable: NONC

Students will learn medical terminology as it relates to each body system. Students learn medical terms and their abbreviations for organs, diseases, symptoms, and for diagnostic, treatment and surgical procedures. This is the second course exposing students to the language of Medicine. It is highly recommended that students successfully complete MA 500A before taking MA 500B. Open entry/Open exit.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121490	101	Slec	MW	06:00 PM—08:35 PM	03/04/24— 04/17/24	ZOOM	Bautista, Rosemary

This is a synchronous, online class with scheduled Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

MA 502 - Health Navigation 0.00 Units

Grading: N **|** ***Advisory Level — Read: | Write: | Math:***

Transfer Status: None | Degree Applicable: NONC

Students will learn the competencies expected as part of health navigation education. This course will provide an overview of health navigation including health services delivery and health insurance, care of the individual, and accessing and analyzing health information competencies.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121491	101	Slec	MW	03:00 PM—05:20 PM	03/11/24— 05/22/24	ZOOM	Kahlon, Inderdeep

This is a synchronous, online class with scheduled Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

MA 503 - Medical Law and Ethics 0.00 Units

Grading: N **|** ***Advisory Level — Read: | Write: | Math:***

Transfer Status: None | Degree Applicable: NONC

Students will explore the legal, policy and ethical issues encountered by healthcare professionals in the evolving healthcare system. Students will examine the essentials of pertinent laws and the ethical demands of healthcare professions. Topics include government regulation of healthcare providers, patient consent to and refusal of treatment, human reproductions issues, privacy and confidentaility, mental health issues, and health information management.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121492	101	Slec	MW	06:00 PM—08:35 PM	05/06/24— 05/22/24	ZOOM	Kahlon, Jagrup

This is a synchronous, online class with scheduled Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

MA 504 - Health and Wellness 0.00 Units

Grading: N **|** ***Advisory Level — Read: | Write: | Math:***

Transfer Status: None | Degree Applicable: NONC

Students will learn the information they need to understand and implement the basic principles of physical, mental, and spiritual wellness including preventive healthcare, staying healthy and risk factors that may cause disease. From stress management and emotional health, to overall well-being, health related attitudes and belief plus individual health behaviors will also be explored.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	121493	101	Slec	TTH	06:00 PM—08:50 PM	03/19/24— 05/23/24	ZOOM	Kahlon, Inderdeep

This is a synchronous, online class with scheduled Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

MA 505 - Professionalism in Healthcare 0.00 Units

Grading: N **|** ***Advisory Level — Read: | Write: | Math:***

Transfer Status: None | Degree Applicable: NONC

Students will learn the common professional standards that all health care workers need to provide excellent care and service to their patients. Crucial soft skills: work ethic, character, relationships, teamwork, communication and etiquette, honesty, cultural competence, personal image, and personal health and wellness will be explored in this course.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121494	101	Slec	TTH	03:00 PM—05:15 PM	04/30/24— 05/21/24	ZOOM	Tatarski, Georgi

This is a synchronous, online class with scheduled Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

MACH 110 - GD&T Measurement 4.00 Units

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Prerequisite: MACH 100 or MACH 120 both with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students learn Geometric Dimensioning and Tolerancing (GD&T) symbols and interpretation, and their related application and inspection. Students will also learn practical precision measurement and instrument selection. This course helps students prepare for the GD&T Technologist certification exam. Students will use a Coordinate Measurement Machine for inspection purposes.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121664	101	Lec	MTWTH	08:00 AM—09:20 AM	04/01/24— 05/23/24	213	Ulate, Isai
	101	Lab	MTWTH	09:30 AM—10:50 AM	04/01/24— 05/23/24	211L	Ulate, Isai

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

MACH 120 - Basic CNC Machining Center 4.50 Units (Materials Fee: $50)

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Transfer Status: CSU | Degree Applicable: AA/AS

Students study basic set-up procedures and the safe use of CNC (Computerized Numerical Controls) Machining Centers. Students study CNC codes, control functions, examining and editing programs, part production, and the proper use of speeds and feeds. Students will use different measurement tools to inspect dimensions according to blueprint specifications. Students also learn basic blueprint reading and trigonometric functions.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121665	101	Lec	MTWTH	08:00 AM—09:20 AM	01/29/24— 03/21/24	213	Ulate, Isai
	101	Lab	MTWTH	09:30 AM—12:00 PM	01/29/24— 03/21/24	211L	Ulate, Isai

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

MACH 126 - Adv CNC Mill and CNC Lathe 4.50 Units (Materials Fee: $50)

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Prerequisite: MACH 120 or MACH 123, both with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students study advanced set-up procedures and the safe use of CNC (Computerized Numerical Controls) Mills. Students will study industry techniques in the set-up of CNC Mills, including: work hold devices, indexing and rotary devices, and various machine operations. Students will use different measurement tools to inspect dimensions, applying more complex blueprint concepts.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121666	101	Lec	MTWTH	05:00 PM—06:20 PM	01/29/24— 03/21/24	213	Ulate, Isai
	101	Lab	MTWTH	06:30 PM—09:00 PM	01/29/24— 03/21/24	211L	Ulate, Isai

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

MACH 129 - CNC Programming & Operations 4.50 Units (Materials Fee: $50)

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Prerequisite: MACH 126 with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students study concepts to optimize Computer Numerical Control (CNC) programs and operations in both CNC Mills and CNC Lathes. Students study how to increase equipment utilization and avoid equipment downtime. This class is an introduction to different CAD/CAM systems and their application; basic CNC programs are created, loaded into a CNC Control, corrected and

saved to a data bank. Students will use a Coordinate Measurement Machine (CMM) to inspect parts and produce inspection reports.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121667	101	Lec	MTWTH	05:00 PM—06:20 PM	04/01/24— 05/23/24	213	
	101	Lab	MTWTH	06:30 PM—09:00 PM	04/01/24— 05/23/24	211L	

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

MACH 151A - Advanced Lathe Practices 4.00 Units (Materials Fee: $50)

Grading: L | ***Advisory Level*** — ***Read:*** *3* | ***Write:*** *3* | ***Math:*** *1*

Prerequisite: MACH 101 with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students learn advanced and safe operation of the lathe, including work holding devices, single point threading, taper turning, knurling, and radius cutting. Students also learn to use calculation and measurement tools.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121673	101	IH			01/29/24— 03/22/24	CANVAS	McCoun, Robert
	101	Lab	S	09:00 AM—12:05 PM	01/29/24— 03/22/24	211L	McCoun, Robert

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

MACH 151B - Advanced Milling MacHines 4.00 Units (Materials Fee: $20)

Grading: L | ***Advisory Level*** — ***Read:*** *3* | ***Write:*** *3* | ***Math:*** *1*

Prerequisite: MACH 101 with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Students learn the theory and application of advanced machine tool processes, with focus on all milling machine operations. Students are instructed in the proper and safe operation of equipment and tools, advanced machine set-ups, indexing heads, rotary tables, and vertical shaping attachments. Special emphasis is placed on use of charts and reference data for calculations.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121674	101	IH			04/01/24— 05/24/24	CANVAS	Aguilar, Martin
	101	Lab	S	09:00 AM—12:05 PM	04/01/24— 05/24/24	211L	Aguilar, Martin

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

MATH 020 - College Algebra 3.00 Units

Grading: L | ***Advisory Level*** — ***Read:*** *3* | ***Write:*** *3* | ***Math:***

Prerequisite: Intermediate Algebra or appropriate placement beyond Intermediate Algebra.

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will solve equations and related applications for polynomial, absolute value, rational, radical, exponential, and logarithmic functions. Students will also analyze problems involving inequalities, systems of equations, matrices, complex numbers, sequences, and series.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120405	101	Lec	TTH	10:15 AM—11:35 AM	01/29/24— 05/24/24	M302	Frazier, Christopher

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This section is for students who choose embedded tutorial support when taking Math 20. Students must enroll in both Math 20-101 and Math 20X-101

120407	102	Lec	MW	07:00 PM—08:20 PM	01/29/24— 05/24/24	M302	Jain, Nanda

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This section is for students who choose embedded tutorial support when taking Math 20. Students must enroll in both Math 20-102 and Math 20X-102.

120408	103	IO			01/29/24— 05/24/24	CANVAS	Tran, Angela

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

120410	105	IO			02/12/24— 05/24/24	CANVAS	Sioshansi, Azar

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This course uses Respondus

Lockdown Browser. This course requires purchase of Webassign.

121609	113	Lec	MW	04:00 PM—05:20 PM	01/29/24— 05/24/24	OFC	Trieu, Phong

This section is reserved for students at the Osborne Juvenile Facility. Additional class times may be required as needed.

MATH 020X - Support for College Algebra 2.00 Units

Grading: K **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *1*

Corequisite: MATH 020

Transfer Status: None | Degree Applicable: NAA

Students will receive "just-in-time" review of the core prerequisite skills, competencies, and concepts needed for students concurrently enrolled in MATH 020, College Algebra. Topics include: a review of computational skills developed in intermediate algebra, factoring, dividing polynomials, solving linear, absolute value, quadratic, radical, exponential, and logarithmic equations, linear and nonlinear inequalities, functions including composition and inverses. This course is appropriate for students who are confident in beginning algebra skills. This course is recommended for students advised to receive additional academic and concurrent support. Students are strongly encouraged to meet with an academic counselor.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120404	101	Lec	TTH	09:15 AM—10:05 AM	01/29/24— 05/24/24	M302	Frazier, Christopher

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This section is for students who choose embedded tutorial support when taking Math 21. Students must enroll in both Math 21-103 and Math 21X-103. Coure requires purchase of Cengage Webassign. Course uses Canvas and Google Drive. It is strongly encouraged to complete the entire sequence of MATH 021 and MATH 022 at San Jose City College. Transfer institutions, including San Jose State University, may not accept these courses if the sequence is completed at two different colleges (including Evergreen Valley College). Please see your counselor for more information.

120417	104	IO			01/29/24— 05/24/24	CANVAS	Rios, Gabriela

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course requires purchase of Cengage Webassign. Course uses Flip Grid, Google Drive, and Respondus Lockdown Browser. It is strongly encouraged to complete the entire sequence of MATH 021 and MATH 022 at San Jose City College. Transfer institutions, including San Jose State University, may not accept these courses if the sequence is completed at two different colleges (including Evergreen Valley College). Please see your counselor for more information.

MATH 021X - Precalculus Prep 2.00 Units

Grading: K **|** ***Advisory Level — Read: | Write: | Math:***

Corequisite: MATH 021

Transfer Status: None | Degree Applicable: NAA

Students will receive "just-in-time" review of the core prerequisite skills, competencies, and concepts needed in Precalculus. Intended for majors in science, technology, engineering, and mathematics who are concurrently enrolled in MATH 21 Precalculus. Topics include: a review of computational skills developed in intermediate algebra, factoring, operations on rational and radical expressions, absolute value equations and inequalities, functions including composition and inverses, and an in-depth focus on quadratic functions. This course is appropriate for students who are confident in beginning algebra skills. This course is recommended for students advised to receive additional academic and concurrent support. Students are strongly encouraged to meet with an academic counselor.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	120411	101	Lec	MW	09:15 AM—10:05 AM	01/29/24— 05/24/24	M303	Rahim, Hasan

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This section is for students who choose embedded tutorial support when taking Math 21. Students must enroll in both Math 21-101 and Math 21X-101. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

	120413	102	Lec	TTH	06:00 PM—06:50 PM	01/29/24— 05/24/24	M203	Tran, Angela

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This section is for students who choose embedded tutorial support when taking Math 21. Students must enroll in both Math 21-102 and Math 21X-102. It is strongly encouraged to complete the entire sequence of MATH 021 and MATH 022 at San Jose City College. Transfer institutions, including San Jose State University, may not accept these courses if the sequence is completed at two different colleges (including Evergreen Valley College). Please see your counselor for more information.

	120415	103	Lec	TTH	09:15 AM—10:05 AM	01/29/24— 05/24/24	M204	Rios, Gabriela

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This section is for students who choose embedded tutorial support when taking Math 21. Students must enroll in both Math 21-103 and Math 21X-103. It is strongly encouraged to complete the entire sequence of MATH 021 and MATH 022 at San Jose City College. Transfer institutions, including San Jose State University, may not accept these courses if the sequence is completed at two different colleges (including Evergreen Valley College). Please see your counselor for more information. Course uses Khan Academy. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

MATH 022 - Trigonometry 3.00 Units

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: Intermediate Algebra or appropriate placement beyond Intermediate Algebra

Transfer Status: CSU | Degree Applicable: AA/AS

This course in numerical and analytical trigonometry is designed to prepare students for the level of trigonometry and advanced algebraic concepts necessary for calculus. Students will study trigonometric functions and equations, basic identities, graphing, inverse trigonometric functions, vectors, polar coordinates, and conic sections. Students may not take a combination of MATH 022 and MATH 025.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	120420	101	Lec	TTH	10:45 AM—12:05 PM	01/29/24— 05/24/24	M301	Solano, Patricia

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. Course requires purchase of Webassign and TI-84 calculator. This section has an optional embedded tutorial support component when taking Math 22. Students may enroll in both Math 22-101 and Math 22X-101. It is strongly encouraged to complete the entire sequence of MATH 021 and MATH 022 at San Jose City College. Transfer institutions, including San Jose State University, may not accept these courses if the sequence is completed at two different colleges (including Evergreen Valley College). Please see your counselor for more information.

	120421	102	IO			01/29/24— 05/24/24	CANVAS	Cochran, Graciela

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. It is strongly encouraged to complete the entire sequence of MATH 021 and MATH 022 at San Jose City College. Transfer institutions, including San Jose State University, may not accept these courses if the sequence is completed at two different colleges (including Evergreen Valley College). Please see your counselor for more information. This course requires purchase of Webassign. This course uses Respondus Lockdown Browser.

MATH 022X - Support for Trigonometry 2.00 Units

Grading: O **|** ***Advisory Level — Read: | Write: | Math:***

Corequisite: MATH 022

Transfer Status: None | Degree Applicable: NAA

Students will receive "just-in-time" review of the core prerequisite skills, competencies, and concepts needed in Trigonometry. MATH 22X is intended for majors in science, technology, engineering, and mathematics who are concurrently enrolled in MATH 22 Trigonometry. Topics include: angles, circles, triangles, a review of algebra skills such as factoring, dividing polynomials, solving linear, quadratic, polynomial, radical, absolute value equations, solving inequalities, applying the

concept of a function, including composition of functions and an inverse function. This course is recommended for students advised to receive additional academic and concurrent support. Students are strongly encouraged to meet with an academic counselor.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
	120419	101	Lec	TTH	12:15 PM—01:05 PM	01/29/24— 05/24/24	M301	Solano, Patricia

This is a traditional on-campus class with meetings at the times listed.For additional class-specific requirements, please email the course instructor. This section is for students who choose embedded tutorial support when taking Math 22. Students must enroll in Math 22-101 to take this course. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you. It is strongly encouraged to complete the entire sequence of MATH 021 and MATH 022 at San Jose City College. Transfer institutions, including San Jose State University, may not accept these courses if the sequence is completed at two different colleges (including Evergreen Valley College). Please see your counselor for more information.

MATH 025 - Precalculus Algebra and Trig 6.00 Units

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *3*

Prerequisite: Intermediate Algebra or appropriate placement beyond Intermediate Algebra

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study basic algebraic concepts, complex numbers, equations and inequalities, graphs of functions, system of equations and inequalities, linear and quadratic functions, polynomial functions of higher degree, rational, exponential, logarithmic, and trigonometric functions, inverse functions, basic identities, vectors, polar coordinates and graphs, and conic sections. This course is an intensive combined course in college algebra and trigonometry designed primarily as preparation for calculus. Students may take both MATH 021 and MATH 022 or take only MATH 025.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120423	101	Lec	MW	09:00 AM—12:05 PM	01/29/24— 05/24/24	M301	Solano, Patricia

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. Course requires purchase of Webassign and TI-84 calculator. This section has an optional embedded tutorial support component when taking Math 25. Students may enroll in both Math 25-101 and Math 25X-101.

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you. This section is for students who choose embedded tutorial support when taking Math 25. Students must enroll in Math 25-101 to enroll in this section.

MATH 052 - Math for Elementary Education 3.00 Units

Grading: L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: Intermediate Algebra or appropriate placement beyond Intermediate Algebra

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study the development of quantitative reasoning skills through in-depth exploration of the structures of the real number system and subsystems, elementary number theory, and the use of manipulatives to present mathematical concepts to children. Students will develop lesson plans and teaching techniques appropriate for an elementary school setting.

Additionally, there will be an emphasis on comprehension and analysis of mathematical concepts and applications of logical reasoning. Mathematics 52 is designed especially for prospective elementary school teachers.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120425	101	IO			01/29/24— 05/24/24	CANVAS	Rios, Gabriela

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course requires purchase of My Math Lab. Course uses Flip Grid, Google Drive, and Respondus Lockdown Browser.

MATH 054 - Math for Technical Fields 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Recommended: Elementary algebra or the equivalent.

Transfer Statuts: CSU | Degree Applicable: AA/AS

Students will learn and apply mathematical concepts and skills that are used in technical fields, such as solar energy, sustainable energy, heating, ventilation, and air conditioning (HVAC), machine technology, and skilled construction, including plumbing, electrical, and construction management. Topics include geometry, measurement, basic statistics, trigonometric functions and algebraic thinking. This college-level course will focus on practical, real-world applications, utilizing problem-solving skills, including estimating and modeling.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

MATH 062 - Calculus for Busi & Soc Sci 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: MATH 021 or MATH 025, with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

This course presents single variable calculus and an introduction to multivariable calculus and their applications for business and social science students. Students study functions and graphs, limits, continuity, differentiation and integral calculus of polynomials, rational functions, power functions, exponential functions, logarithmic and natural logarithmic functions, partial differentiation, and applications of these topics in business and social science.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120429	101	Lec	MW	09:15 AM—10:35 AM	01/29/24— 05/24/24	M304	Randall, Lucas

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. Course requires purchase of Cengage WebAssign.

MATH 063 - Elementary Statistics 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: Intermediate Algebra or appropriate placement beyond Intermediate Algebra

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to the study of statistics. Students will learn methods of displaying data, descriptive statistics, basic concepts of probability theory, random variables, common statistical distributions, estimates and sample size, hypothesis testing, tests of two independent population parameters, tests of 3 or more population means or proportions (Chi-square, one-way ANOVA), and regression and correlation. Students will apply basic statistical concepts to data from education, business, social sciences, and natural sciences. To aid in the analysis of data, the use of computational technology will be required.

	102	IO			01/29/24— 05/24/24	CANVAS	Cochran, Graciela

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This course requires purchase

of Webassign. This course uses Respondus Lockdown Browser.

120449	103	Lec	MTWTH	07:45 AM—08:50 AM	01/29/24— 05/24/24	M304	Randall, Lucas

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. Course requires purchase of Cengage WebAssign.

MATH 073 - Multivariable Calculus 5.00 Units

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: MATH 072 with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

This is the third course in calculus for students majoring in mathematics, physical science, computer science, or engineering. Students will study the concepts of differential and integral calculus extended to multivariable functions. The course content includes vectors, dot products, cross products, surfaces in three dimensions, derivatives, integrals, arc length and curvature for vector functions, partial derivatives, chain rule, tangent planes, maximum and minimum values for functions of several variables, Lagrange multipliers, multiple integrals, and vector calculus.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120451	101	Lec	TTH	12:15 PM—02:35 PM	01/29/24— 05/24/24	M304	Randall, Lucas

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. Course requires purchase of Cengage WebAssign.

120453	102	IH			01/29/24— 05/24/24	CANVAS	McCandless, Kevin
	102	Lec	W	06:15 PM—08:20 PM	02/21/24— 02/21/24	M203	McCandless, Kevin
	102	Lec	W	06:15 PM—08:20 PM	03/20/24— 03/20/24	M203	McCandless, Kevin
	102	Lec	W	06:15 PM—08:20 PM	04/24/24— 04/24/24	M203	McCandless, Kevin
	102	Lec	W	06:15 PM—08:20 PM	05/22/24— 05/22/24	M203	McCandless, Kevin

This is a hybrid class with scheduled exams in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course requires purchase of Knewton Alta.

MATH 078 - Differential Equations 4.00 Units

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: MATH 072 with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study ordinary differential equations and their applications, including methods for solving first order equations, linear equations of arbitrary orders, and systems of linear differential equations. Students are introduced to Laplace transforms, series solutions, and some theoretical aspects of differential equations such as existence and uniqueness of solutions, the phase plane, and stability of equilibrium solutions for autonomous equations.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120455	101	IO			01/29/24— 05/24/24	CANVAS	McCandless, Kevin

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. Course requires purchase of Webassign subscription. It is strongly encouraged to complete the entire sequence of MATH 078 and MATH 079 at San Jose City College. Transfer institutions, including San Jose State University, may not accept these courses if the sequence is completed at two different colleges (including Evergreen Valley College). Please see your counselor for more Information.

121388	102	Slec	MTWTH	06:45 AM—07:50 AM	01/29/24— 05/23/24	ZOOM	Banks, John

This section follows the Leland High School instructional calendar. This is a synchronous, online class with scheduled Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

MATH 079 - Linear Algebra 3.00 Units

Credit by Exam: Yes ***Grading:*** L **|** ***Advisory Level — Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Prerequisite: MATH 072 with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study linear systems and matrices, linear transformations, determinants, vector spaces and their properties, orthogonality and inner product spaces, eigenvalues and eigenvectors, diagonalization and their applications. This course is designed for students majoring in math, statistics, physics, computer science or engineering.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120457	101	Lec	TTH	09:15 AM—10:35 AM	01/29/24— 05/24/24	M301	Solano, Patricia
	101	Lec	TTH	09:15 AM—10:35 AM	01/29/24— 05/24/24	M301	Solano, Patricia

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. Course requires purchase of Webassign and TI-84 calculator. It is strongly encouraged to complete the entire sequence of MATH 078 and MATH 079 at San Jose City College. Transfer institutions, including San Jose State University, may not accept these courses if the sequence is completed at two different colleges (including Evergreen Valley College). Please see your counselor for more Information.

MATH 080 - Discrete Structures 4.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: CIS 025C or CIS 054 or CIS 084 and MATH 025 or MATH 021 and MATH 022 with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will be introduced to the discrete structures used in Computer Science. Students will learn and apply concepts and ideas in the following topics: functions, relations, set theory, logic, methods of proof, counting principles, discrete probability, recursion, graphs, and trees.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120459	101	Lec	TTH	09:15 AM—11:05 AM	01/29/24— 05/24/24	M304	Randall, Lucas

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. Course requires purchase of Cengage WebAssign.

MATH 098 - Directed Study in Math 0.50 Units

Grading: O **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: MATH 025 or MATH 063 with C or better

Transfer Status: CSU | Degree Applicable: AA/AS

Individual or small groups of students who would benefit from Independent Study under the direction of faculty members in specific or related disciplines may develop individualized learning contracts designed to enhance their individual instructional programs. The students and the faculty member in consultation with the Division Dean will determine appropriate learning objectives and activities as well as the number of units to be earned. Instructions and the Learning Contract forms are available in the Division office. Repeatable to a maximum of 9 units across all disciplines.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121877	101				02/05/24— 05/17/24		Sioshansi, Azar

This section is for MATH 063 PLTL students.

MUSIC 020 - Class Piano 1.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Prerequisite: MUSIC 050B, with grade C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

This course is designed for intermediate pianists to improve technique and interpretive abilities. Study and testing materials are drawn from a graduated series of exercises, etudes, and representative piano works. The student will learn how to assess and provide the stylistic nuances and phrasing concepts required for the performance of repertoire work from the Renaissance through the 20th century. The student will learn approaches to improvisation and other creative activities.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120770	101	Lab	TTH	10:45 AM—12:05 PM	01/29/24— 05/24/24	A117	Rodriguez, Mauricio

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This is a LTC (low textbook cost) section. If there is a required textbook, you will be able to access it online or purchase a hard copy for $40 or less.

MUSIC 032 - Intro to Chicanx/Latinx Music 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** **|** ***Write:*** **|** ***Math:***

Transfer Status: CSU | Degree Applicable: AA/AS

Students are introduced to the diverse musical influences that have shaped the Chicanx/Latinx experience in the United States. Particular focus will be placed on African, Indigenous and European origins. Cultural influences such as Afro-Caribbean, Salsa, Son Jarocho, Norteno/Tejano, Corridos, Chicano Rock and Hip Hop will be analyzed with an emphasis on seminal works and their impact on Chicanx/Latinx musical experiences and identity formation.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120772	101	IO			01/29/24— 05/24/24	CANVAS	Covarrubias, Jesus
	101	IO			01/29/24— 05/24/24	CANVAS	Covarrubias, Jesus

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

MUSIC 040A - Intro to Digital Audio Prod. I 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *2* **|** ***Write:*** *2* **|** ***Math:***

Transfer Status: CSU | Degree Applicable: AA/AS

Students are introduced to the fundamentals of operating a digital audio workstation (DAW) for recording. Students will develop production skills within the Pro Tools Audio Software platform widely used throughout audio recording industries. Through hands-on activities, students will develop their skills in proper recording, editing and mixing techniques. This course is designed for students majoring in digital music technology and/or interested in careers in audio engineering, producing music for studio or live formats and music for online publishing.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

MUSIC 050A - Beginning Piano I 1.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

In this introductory piano course, students will study basic theory concepts such as the 5-finger pattern, intervals, chords, simple chord progressions, and scales. Students will harmonize simple melodies, transpose and improvise simple pieces and patterns. This course reinforces concepts taught in the theory courses and is designed for students wanting to learn music using the piano as a vehicle for learning.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

MUSIC 083 - Exploring the World of Music 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will be introduced to the elements of music from a cross-cultural perspective. Religious, cultural societal, and political influences from various geographical locations will be explored.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120776	102	IH			01/29/24— 05/24/24	CANVAS	Andrade, Kenneth
	102	Lec	F	10:45 AM—12:05 PM	01/29/24— 05/24/24	A112	Andrade, Kenneth

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120778	103	IO			04/01/24— 05/24/24	CANVAS	Covarrubias, Jesus

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

MUSIC 099 - Introduction to Music Theory 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students study the language of music - how to read, notate, interpret, perform, and create with those symbols which represent the four properties of sound: pitch, duration, amplitude, and timbre. Students focus on the fundamentals of Western notated music and how these elements combine to create musical compositions: pitch identification, rhythm and meter, scales, key signatures, intervals, chord construction, harmonic progression and texture. Students will examine musical styles relevant to various cultures and historical periods.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

120781	102	IO			01/29/24— 05/24/24	CANVAS	Covarrubias, Jesus

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

OCEAN 010 - Oceanography 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study the ocean environment covering the geological, physical, chemical, and biological aspects of the sea. Students will explore the relationship of these processes to each other and to overarching oceanographic concepts, such as plate tectonics, ocean circulation, and the water cycle. Major focuses include communicating scientific concepts and the impact these processes have on civilization. The scientific method is illustrated as it relates to analyzing oceanographic problems. Field trips may be required.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120461	101	IO			01/29/24— 05/24/24	CANVAS	Christen, Oliver

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

PHIL 010 - Introduction to Philosophy 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to the philosophical history and disciplines of metaphysics and epistemology from Socrates to Wittgenstein. They will examine the ideas and methods of Western philosophy concerning knowledge, reality, and values. Topics include the sources and limits of knowledge and the nature of reality. Other topics that will be examined from a philosophical perspective include the nature of the self, truth, ethics, religion, science, language, beauty and art, and political theory.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120783	102	Lec	MW	09:15 AM—10:35 AM	01/29/24— 05/24/24	B208	Galindo, Javier

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

PHIL 060 - Logic and Critical Thinking 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *2*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to formal and informal logic. Students will be instructed in the methodology and the applications of formal logic including symbolic and sentential logic with emphases on truth tables, validity, categorical propositions, Venn diagrams, syllogism, inductive and deductive reasoning, and critical thinking. Emphasis will be given on the logic systems entailed by language, word-functions, definition, and common logical fallacies.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

PHOTO 022 - Intro to Darkroom Photography 3.00 Units (Materials Fee: $25)

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will be introduced to camera use and darkroom technique. The fundamentals of design and composition are explored, and students will examine the relationship between photography and other art forms. They will explore photography as a social documentary tool, an art form, and as a vocational skill. Black and white film and darkroom techniques are given priority but digital photography will also be introduced. Students must provide their own 35mm camera. Field trips to museums and galleries may be required.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

PHOTO 079 - Beginning Digital Photography 3.00 Units

Grading: L | ***Advisory Level*** — ***Read:*** *3* | ***Write:*** *3* | ***Math:***

Recommended: PHOTO 076

Transfer Status: CSU | Degree Applicable: AA/AS

Students will learn to use DSLR (digital single lens reflex) cameras professionally using both manual and advanced program modes, working with light, lens, shutter, exposure, depth, motion, and color balance. Students will study post-production principles such as manipulating tonal range, correcting color, dodging and burning, adjustment layers and masking, output for print and other devices. Softwares used are Photoshop, Lightroom, Aperture, and iPhoto. Class activities require weekly shooting assignments, thorough organization, advanced image editing, and on-going print preparation (including wide format). This is a beginner's course in Digital Photography.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

PHYS 004A - General Physics 5.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Corequisite: Previous or concurrent enrollment in MATH 072

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to the general principles of mechanics at an elementary level. Specific topics include kinematics, Newton's laws of motion, work and energy, momentum, rotation, simple harmonic motion, universal gravitation, and fluids. Elementary applications of these principles are introduced using a problem solving approach. This course is one of three courses in calculus-based general physics classes for majors in physics, chemistry, engineering, mathematics or other sciences.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120469	101	Lec	MW	09:00 AM—10:50 AM	01/29/24— 05/24/24	S202	Castilla, Guillermo
	101	Lab	MW	10:55 AM—12:15 PM	01/29/24— 05/24/24	S206	Castilla, Guillermo

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

120470	102	Lec	TTH	06:00 PM—07:50 PM	01/29/24— 05/24/24	S206	Mohebi, Mehrdad
	102	Lab	TTH	08:00 PM—09:20 PM	01/29/24— 05/24/24	S206	Mohebi, Mehrdad

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This course requires purchase of Webassign. This course uses Canvas and MS Office.

PHYS 004B - General Physics 5.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *7*

Prerequisite: PHYS 004A and MATH 071 and MATH 072 with C or better

Recommended: Concurrent enrollment in MATH 73 is recommended.

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students learn conceptual aspects of electricity, magnetism, circuits, and Maxwell's equations, and the quantitative analysis of real world situations. This course is the second of three courses in calculus-based general physics, serving students majoring in engineering, chemistry, physics, mathematics and other sciences.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120471	101	Lec	TTH	09:00 AM—10:50 AM	01/29/24— 05/24/24	S207	Castilla, Guillermo
	101	Lab	TTH	10:55 AM—12:15 PM	01/29/24— 05/24/24	S207	Castilla, Guillermo

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

	120472	102	Lec	TTH	06:00 PM—07:50 PM	01/29/24— 05/24/24	S207	Huang, Yiyun
		102	Lab	TTH	08:00 PM—09:20 PM	01/29/24— 05/24/24	S207	Huang, Yiyun

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor. This course uses Microsoft Excel or Google Sheets. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

PHYS 004C - General Physics 5.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *7*

Prerequisite: PHYS 004A and MATH 071 and MATH 072 with C or better

Recommended: Concurrent enrollment in MATH 73 is recommended.

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to general principles of optics and thermodynamics at a calculus-based level. This is one of three courses in calculus-based general physics, serving students majoring in engineering, chemistry, physics, mathematics and other sciences. Several technological applications of these principles are discussed. Topics include waves, geometric optics, wave optics (including interference, diffraction, and polarization), heat, thermal properties of matter, thermodynamics and its laws. Other topics include special relativity and modern physics. A problem solving approach is used, emphasizing both conceptual understanding and basic mathematical modeling.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120473	101	Lec	M	05:30 PM—09:20 PM	01/29/24— 05/24/24	S205	Castilla, Guillermo
	101	Lec	M	05:30 PM—09:20 PM	01/29/24— 05/24/24	S205	Castilla, Guillermo
	101	Lab	W	05:30 PM—08:35 PM	01/29/24— 05/24/24	S207	Castilla, Guillermo

This is a traditional on-campus class with meetings at the times listed. For additional class-specific requirements, please email the course instructor.

POLSC 001 - Politics and Govt in America 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to national, California, and local governments and politics with an emphasis on the U.S. Constitution and the national government. Students will examine the historical origins of the development of the U.S. Constitution and the philosophy and principles used by the framers in the late 18th century. POLSC 001, along with HIST 001 or HIST-009 or HIST-021 or HIST-024 satisfies the District requirements in the study of U.S. Constitution, California, and local governments.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120796	101	IH			01/29/24— 05/24/24	CANVAS	Portales, Elias
	101	Lec	F	01:45 PM—03:05 PM	01/29/24— 05/24/24	B102	Portales, Elias

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120798	102	IH			01/29/24— 05/24/24	CANVAS	Noori, Azatullah
	102	Lec	TH	06:15 PM—07:35 PM	01/29/24— 05/24/24	B102	Noori, Azatullah

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120986	103	IO			01/29/24— 05/24/24	CANVAS	Crawford, Philip

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

POLSC 004 - International Relations 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to the study of world politics. They will be provided with a framework for analyzing world events and the broader dynamics of the relations among nations. Emphasis will be on theories of international relations, the causes and prevention of war, international law and organizations, international political economy, and the foreign policy process both in the United States and abroad. Attendance at an off-campus event may be required.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120799	101	IH			01/29/24— 05/24/24	CANVAS	Portales, Elias
	101	Lec	W	10:45 AM—12:05 PM	01/29/24— 05/24/24	B102	Portales, Elias

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

PSYCH 010 - General Psychology 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to the major theories, areas of study, and methodologies of contemporary psychology and the scientific study of human behavior. Topics addressed include biological and neurological processes and structure, genetics, life span development, consciousness, sensory processes, perception, learning, memory, language and thought, intelligence, motivation and emotion, stress, personality, psychopathology, and psychotherapy.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120801	102	IH			01/29/24— 05/24/24	CANVAS	Leal, Ana
	102	Lec	F	09:15 AM—10:35 AM	01/29/24— 05/24/24	GE123	Leal, Ana

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

120803	103	IO			01/29/24— 05/24/24	CANVAS	Sanchez, Laura

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120804	104	IO			04/01/24— 05/24/24	CANVAS	Sanchez, Laura

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120818	105	IH			01/29/24— 05/24/24	CANVAS	Carlson, Kevin
	105	Lec	M	06:15 PM—07:35 PM	01/29/24— 05/24/24	GE123	Carlson, Kevin

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional

class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120822	108	IO			01/29/24— 05/24/24	CANVAS	Sanchez, Laura

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

120823	109	Slec	MW	10:45 AM—12:05 PM	01/29/24— 05/24/24	ZOOM	Jackler, Frances

This is a synchronous, online class with scheduled Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you. This section is reserved for LEAP students in the Asian American Pacific Islander Learning Community Cohort. For more information, please call 408-288-3115.

121828	110	IO			01/29/24— 05/24/24	CANVAS	Jackler, Frances

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

121849	111	IO			02/05/24— 05/24/24	CANVAS	Patel, Nirali

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

PSYCH 012 - Social Psychology 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Recommended: PSYCH 010

Transfer Status: CSU/UC | Degree Applicable: AA/AS

This course introduces students to the study of how people think about, influence, and relate to one another. Topics include self concept, misperception, beliefs, attitudes, conformity, prejudice, liking, attitude change, first impressions, aggression, conflict, peacemaking, and service to others.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120824	101	IH			04/01/24— 05/24/24	CANVAS	Carlson, Kevin
	101	Lec	T	01:45 PM—03:05 PM	04/01/24— 05/24/24	GE123	Carlson, Kevin

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

121559	102	IH			01/29/24— 03/22/24	CANVAS	Carlson, Kevin
	102	Lec	W	01:45 PM—03:05 PM	01/29/24— 03/22/24	GE125	Carlson, Kevin

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

121850	103	Slec	TTH	08:30 AM—09:55 AM	01/30/24— 05/23/24	ZOOM	Tucker, Jeanette

This is a dual-enrollment section offered for Leland High School. It is reserved for students of this high school only. This is a synchronous, online class with scheduled Zoom meetings at the times listed. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

PSYCH 020 - Psychology of Stress Reduction 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Recommended: completion of PSYCH 010

Transfer Status: CSU | Degree Applicable: AA/AS

Students are presented a comprehensive approach to stress and stress reduction from a psychological perspective. A psychophysiological model of stress will be presented and analyzed. A variety of evidenced-based stress reduction methods will be taught in the contexts of student and work life settings.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
121566	101	IH			01/29/24— 05/24/24	CANVAS	Leal, Ana
	101	Lec	T	08:30 AM—09:50 AM	01/29/24— 05/24/24	B209	Leal, Ana

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional

class-specific requirements, please email the course instructor.

121567	102	IH			01/29/24— 05/24/24	CANVAS	Sanchez, Laura
	102	Lec	W	06:15 PM—07:35 PM	01/29/24— 05/24/24	GE121	Sanchez, Laura

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

PSYCH 022 - Research Methods in Psych 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:*** *3*

Prerequisite: PSYCH 010 and MATH 063, both with C or better

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study various research methods with an emphasis on research design, experimental procedures, instrumentation, and the collection, analysis, interpretation, and reporting of research data. Research design and methodology will be illustrated through a selected review of current research in neurophysiology, sensation, perception, learning, memory and/or human development.

	Reg ID	Sec	Type	Days	Time	Date	Room	Instructor

	102	Lec	M	01:25 PM—02:50 PM	01/29/24— 05/24/24	GE121	Carlson, Kevin

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy will be loaned to you.

PSYCH 031 - Biological Psychology 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:*** *3*

Prerequisite: PSYCH 010 with C or better

Recommended: BIOL 004A or BIOL 020 or BIOL 021

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will be introduced to the scientific study of the biological basis of behavior and its fundamental role in the neurosciences. Physiological, hormonal, and neurochemical mechanisms, and brain-behavior relationships underlying the psychological phenomena of sensation, perception, regulatory processes, emotion, learning, memory, and psychological disorders will be addressed. Ethical standards for human and animal research are discussed. The history of the scientific study of brain-behavior relationships and mental processes will also be addressed.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120829	101	IO			01/29/24— 05/24/24	CANVAS	Carlson, Kevin

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

PSYCH 035 - Psychology of Women 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will study significant physical and psychological issues of women within an historical, familial, societal, cultural and contemporary framework. They will explore intersectionality such as gender, gender roles, binary/alternative gender, social constructivism, race, sex, ethnicity, global perspectives, mental health, ability, sexism, politics, laws, and social justice movements that influence the psychology of women and identity. A comparative analysis of the interplay between intersectionality and psychological issues is used to examine the concepts of health, family, work, well-being, stress management, violence against women, power, feminism, and the media using psychological theories and current scientific research.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120830	101	IH			04/01/24— 05/24/24	CANVAS	Patel, Nirali
	101	Lec	TH	10:45 AM—12:05 PM	04/01/24— 05/24/24	GE121	Patel, Nirali

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

121524	102	Lec	TTH	01:25 PM—02:50 PM	01/30/24— 05/23/24	MIL-L1	Koorkoff, Marina

This is a dual-enrollment section offered at Milpitas High School. It is reserved for students of this high school only. This is a ZTC (zero textbook cost) section. If there is a required textbook, you will be able to access it online for free or a print copy

will be loaned to you.

PSYCH 041 - Developmental Disabilities 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will be introduced to the interrelationships among the physical, intellectual, social and psychological aspects of developmental disabilities (DD). Students will review various service delivery approaches, policies, and programs designed to foster an adequate adjustment for individuals with DD and their families. Students will also explore values and beliefs relating to persons with DD to help us better understand our own feelings and the feelings of others. Various developmental disabilities will be reviewed in an attempt to more fully understand the challenges and needs of individuals. Field trips may be required.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120832	101	IH			04/01/24— 05/24/24	CANVAS	Sanchez, Laura
	101	Lec	TH	09:15 AM—10:35 AM	04/01/24— 05/24/24	GE123	Sanchez, Laura

This is a hybrid class with scheduled meetings in person on campus at the times listed and additional learning done independently online. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

PSYCH 092 - Developmental Psychology 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *3* **|** ***Write:*** *3* **|** ***Math:*** *0*

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will be introduced to developmental psychology traced from conception through death. Students will study the biological, cognitive, emotional, and social factors affecting development and the interaction of these factors throughout the lifespan. Social contexts that influence the course of development such as culture, socioeconomic status, and historical time and place will be examined. Developmental tasks and potential developmental crises are identified for each of the age groups.

PSYCH 099 - Abnormal Psychology 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:***

Recommended: Completion of PSYCH 010

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students are introduced to the scientific study of psychopathology. Students study abnormal behavior from biological, psychological and sociocultural perspectives. The course examines the application of psychological principles to the diagnosis, understanding, and treatment of psychological disorders. Students also study both the practical and theoretical aspects of abnormal behavior, diagnostic techniques, and systems of prevention and remediation.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
120838	101	IO			01/29/24— 05/24/24	CANVAS	Sanchez, Laura

This is a fully online class with no scheduled meetings. Students will use the college's learning management system, Canvas, for coursework. For additional class-specific requirements, please email the course instructor.

READ 010 - Critical Reading 3.00 Units

Grading: L **|** ***Advisory Level*** **—** ***Read:*** *4* **|** ***Write:*** *4* **|** ***Math:***

Transfer Status: CSU/UC | Degree Applicable: AA/AS

Students will examine, develop, and apply critical reading strategies to academic reading materials. Emphasis is on advocating critical thinking, reflective judgment, and problem solving skills that lead to the ability to reason inductively and deductively, and interpret and critically evaluate formal and informal fallacies. Students will critically apply reading strategies to reach well-supported factual or judgmental conclusions from multi-discipline and multi-cultural academic texts.

Reg ID	Sec	Type	Days	Time	Date	Room	Instructor
